Comprehensive School Safety Plan

The Cottonwood School
Section A: General Information – School Safety - Includes Employee Fingerprint/Background Check - Ed Code 44237
Part 1: District Commitment to School Safety

The Cottonwood School is committed to ensuring that all enrolled students and all employees are safe and secure. The Cottonwood School believes that a beginning step toward safer schools is developing a comprehensive plan for school safety by every school. The Cottonwood School intends that parents, students, teachers, administrators, counselors, classified personnel, and community agencies develop safe school plans as a collaborative process. The plan will be reviewed and updated on an annual basis and proposed changes will be submitted to the Board for approval.

The Cottonwood School
Section A: General Information – School Safety - Includes Employee Fingerprint/Background Check - Ed Code 44237
Part 2: Legislative Requirements

The California Education Code (sections 35294-35294.9) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

This requirement was presented in Senate Bill 187, approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 187/SB 334 to contain the following elements:

Plans for Charter Schools must “identify appropriate strategies and programs that provide and maintain a high level of school safety and address the school’s procedures for complying with existing laws related to school safety, *including but not limited to*” the following:

- A. Employee Fingerprint/Background Check – Ed Code 44237
- B. Child Abuse Reporting Procedures - Penal Code 11165.5 & .6
- C. Emergency/Disaster Plans – Ed Code 32287; CCR Title 8, Sec 3220; ADA
- D. Suspension/Expulsion policies and procedures – Ed Code 48915
- E. Procedures to notify teachers of dangerous pupils – Ed Code 49079
- F. Discrimination and Harassment Policy (include hate crime reporting procedures and policies)*
- G. Schoolwide Dress Code (if it exists - including the prohibition of gang-related apparel)
- H. Procedures for safe ingress and egress of pupils, parents, and school employees to and from school site (pick-up, drop-off, maps, etc.)
- I. A safe and orderly environment conducive to learning at the school.

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on its school safety plan status, including a description of its key elements in the annual school accountability report card.

Part 3: Maintaining a Safe and Orderly Environment

It is a priority of the administration and staff at The Cottonwood School that every student who attends our school will be provided with an environment in which the students feel physically safe and a positive school climate in all activities.

Our administration and staff desire to provide an orderly, caring, and nondiscriminatory learning environment where all students can feel comfortable and take pride in their school and their achievements.

Our administration encourages staff to teach students the meaning of equality, human dignity, and mutual respect and to employ cooperative learning strategies that foster positive interactions among students from diverse backgrounds.

Students shall have opportunities to voice their concerns about school policies and practices and to share responsibility for solving problems that affect their school. Staff shall encourage and reward success and achievement, participation in community projects, and positive student conduct.

Our school network promotes nonviolent resolution techniques to encourage attitudes and behaviors that foster harmonious relations. Staff shall receive training that implements and supports conflict resolution (California Education Code Sections 32230-32239, 35160, 35160.1, 44806).

The Cottonwood School remains in compliance with existing laws related to school safety. This plan outlines several elements critical to maintaining a safe school environment.

Part 4: Criminal Background Check

CRIMINAL BACKGROUND CHECK

The Cottonwood School recognizes the importance of maintaining a safe workplace with employees who are honest, trustworthy, qualified, reliable, and nonviolent and do not present a risk of harm to students, coworkers, or others. The Cottonwood School will perform applicant background checks and employee investigations as required by Education Code section 47605 [b][f], which requires that “each employee of the school furnish the school with a criminal record summary.”

All employees must have Live Scan fingerprint results on file with Human Resources at The Cottonwood School. Proof of Live Scan fingerprinting is a requirement of employment, and the results must be provided to The Cottonwood School prior to the first day of work. Live Scan fingerprinting will be required of all job applicants, employees, and volunteers as required by California and federal law. Background checks may also be required of employees whose job duties involve students' care, handling of money, valuables, or confidential information, or as otherwise deemed prudent by the school. These background checks are performed through a fingerprinting service coordinated by the California Department of Justice (DOJ) and the Federal Bureau of Investigation (FBI). Any and all information obtained by The Cottonwood School may be considered in evaluating one's suitability for employment, promotion, reassignment, or retention as an Employee.

The Cottonwood School shall also request subsequent arrest notification from the Department of Justice and take all necessary action based upon such further information.

The Cottonwood School may occasionally find it necessary to investigate current employees, where behavior or other relevant circumstances raise questions concerning work performance, reliability, honesty, trustworthiness, or potential threat to the safety of coworkers, students, or others. Employee investigations may, where appropriate, including credit reports and investigations of criminal records, including appropriate inquiries about any arrest for which the employee is out on bail. In the event that a background check is conducted, The Cottonwood School will comply with the federal Fair Credit Reporting Act and applicable state laws, including providing the employee with any required notices and forms. Employees subject to an investigation are required to cooperate with The Cottonwood School's lawful efforts to obtain relevant information and may be disciplined up to and including suspension without pay and/or termination for failure to do so.

Employees with adverse background information (such as certain specific criminal conviction) may be ineligible for employment with The Cottonwood School.

Section B: Child Abuse Reporting Procedures - Penal Code 11165.5 &.6
Part 1: Child Abuse Reporting Procedures

Child abuse reporting law (Penal Code Section 11166) requires that The Cottonwood School employee who has reason to believe that a child has been subjected to abuse report the incident to the proper authorities.

At The Cottonwood School, protecting children from child abuse is a significant priority. Each year the administration sets aside time to meet with staff to discuss child abuse indicators and to remind teachers of the procedures to follow when abuse is suspected. The Suspected Child Abuse Report can be found on the last page of this plan and at https://oag.ca.gov/sites/all/files/agweb/pdfs/childabuse/ss_8572.pdf

Employees of The Cottonwood School are familiar with Penal Code Section 11166 and understand the requirement that certificated and classified personnel report suspected child abuse immediately or as soon as practically possible to Children's Protective Services by telephone. They are aware that a call must be followed within at least 36 hours by a written report to the child protective agency.

All staff is aware of Child Abuse Information Folder's location is kept on file and updated regularly. It includes informational literature, guidelines for recognizing abuse, and specific directions for reporting it.

The determination as to who should be contacted will depend significantly upon the situation at hand. The local law enforcement agency will dispatch a unit to the school as soon as possible. Children's services may take much longer to respond. School personnel should always take into consideration the severity of the abuse and the extent to which the student's safety is at risk.

Section B: Child Abuse Reporting Procedures - Penal Code 11165.5 &.6
Part 1: Child Abuse Reporting Procedures

The State of California Penal Code mandates the requirements of school personnel and the identification and reporting of known or suspected child abuse to a protective agency. Failure to do so on the part of school personnel could lead to penalties that might be imposed on these individuals. The Cottonwood School board policies are continually updated to reflect appropriate legislation. Excerpts from the California Penal Code and The Cottonwood School Board Policy are presented below.

From California Penal Code Section 11166

...any child care custodian, health practitioner, or employee of a child protective agency who has knowledge or observes a child in his or her professional capacity within the scope of his or her employment whom he or she knows or reasonably suspects has been the victim of child abuse shall report the known or suspected instance of child abuse to a child protective agency immediately or as soon as practically possible by telephone and shall prepare and send a written report thereof within 36 hours of receiving the information concerning the incident.

The Cottonwood School
– Child Abuse Prevention Programs

Recognizing that our responsibility to students includes the protection of their physical and mental well-being, the Governing Board desires to provide whatever opportunities or resources may be available for the prevention of child abuse.

The Board agrees with the Legislature that:

1. Child abuse and neglect is a severe and increasing problem in California.
2. School districts and preschools are able to provide an environment for the training of children, parents, and all school district staff.
3. Primary prevention programs in the school districts are an effective and cost-efficient method of reducing the incidence of child abuse and neglect and for promoting healthy family environments.

Parents shall be given notice of and may refuse to have their children participate in prevention training program.

2. “Mandated Reporters” are those people defined by law as “child care custodian,” “medical practitioners,” and non-medical practitioners” and include virtually all school employees. The following school personnel are required to report:

Teachers, administrators, supervisors of child welfare and attendance, certificated pupil personnel employees, employees of a child care institution, head start teachers, school psychologists, licensed nurses, counselors, presenters of child abuse prevention programs, and those instructional aides or other classified employees trained in child abuse reporting.
3. “Child Protective Agencies” are those law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff’s department, county welfare or juvenile probation department, and child protective services.
4. “Reasonable Suspicion” means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse. (California Penal Code 11166)

Reporting Procedures

1. To report known or suspected child abuse, any employee (as defined above) shall report by telephone to the local child protective agency.

The telephone report must be made immediately, or as soon as practically possible, upon suspicion. The verbal report will include:

- a. The name of the person making the report.
- b. The name of the child.
- c. The present location of the child.
- d. The nature and extent of any injury.
- e. Any other information requested by the child protective agency, including the information that led the mandated reporter to suspect child abuse.

Comprehensive School Safety Plan

The Cottonwood School
Section B: Child Abuse Reporting Procedures - Penal Code 11165.5 &.6
Part 1: Child Abuse Reporting Procedures

The Cottonwood School – Child Abuse and Neglect (Continued)

When the verbal report is made, the mandated reporter shall note the name of the official contacted, the date and time contacted, and any instructions or advice received.

2. Within thirty-six (36) hours of making the telephone report, the mandated reporter will complete and mail a written report to the local child protective agency.

The written report shall include completion of the required standard Department of Justice form (DOJ SS 8572).

The mandated reporter may request and receive copies of the appropriate form either from the school district or directly from the local child protective agency.

Detailed instructions for completion of the form are on the back sheet of the form. Reporters may request assistance from the site administrator in completing and mailing the form; however, the mandated reporter is still responsible for ensuring that the written report is correctly filed.

3. Employees reporting child abuse to a child protective agency are encouraged, but not required, to notify the site administrator or designee as soon as possible after the initial verbal report by telephone. The site administration, when notified, shall inform the Superintendent.

Administrators so notified shall provide the mandated reporter with any assistance necessary to ensure that the verbal or written reporting procedures are carried out according to state law and district regulations. If requested by the mandated reporter, the Executive Director may assist in the completion and filing of these forms.

Legal Responsibility and Liability

1. Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.

Section B: Child Abuse Reporting Procedures - Penal Code 11165.5 &.6
Part 1: Child Abuse Reporting Procedures

The Cottonwood School

– Child Abuse and Neglect (Continued)

2. A mandated reporter who fails to report an instance of child abuse, which he/she knows to exist or reasonably should know to exist, is guilty of a misdemeanor and is punishable by confinement in jail for a term not to exceed six (6) months or by a fine of not more than one thousand dollars (\$1,000) or both. The mandated reporter may also be held civilly liable for damages for any injury to the child after a failure to report.
3. When two (2) or more persons who are required to report jointly have knowledge of suspected instance of child abuse, and when there is an agreement, and a single report may be made and signed by the person selected. However, if any person who knows or should know that the person designated to report failed to do so, that person then has a duty to make the report.
4. The duty to report child abuse is an individual duty, and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction.

Release of Child to Peace Officer

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse, the Executive Director shall not notify the parent or guardian as required in other instances of removal of a child from school, but rather shall provide the peace officer with the address and telephone number of the child's parent or guardian.

It is the responsibility of the peace officer to notify the parent or guardian of the situation. Peace officers will be asked to sign an appropriate release or acceptance of responsibility form (cf. 5145.11 – Questioning and Apprehension).

When School Employees are Accused of Child Abuse

Regardless of who child abusers may be, the major responsibilities of mandated reporters are to (1) identify incidents of suspected child abuse and (2) comply with laws requiring reporting of suspected abuse to the proper authorities. Determining whether or not the suspected abuse actually occurred is not the responsibility of the school employee. Such determination and follow-up investigation will be made by a child protective agency.

Parent/guardians or members of the public accusing school employees of child abuse should be made aware of the ramifications of making false reports and should be provided with information regarding child abuse and child abuse reporting.

Pending the outcome of an investigation by a child protective agency and prior to the filing of formal charges, the employee may be subject to reassignment or a paid leave of absence.

Disciplinary action resulting from the filing of formal charges or upon conviction shall be in accordance with district policies, regulations, and/or collective bargaining agreements. The Executive Director or designee should consult with legal counsel in implementing either suspension or dismissal.

The Cottonwood School
Section C: Emergency/Disaster Plans - Ed Code 32287; CCR Title 8, Sec 3220 ADA
Part 1: General Information - Disaster

The Cottonwood School will take all necessary measures to keep students, staff, and visitors safe in the event of a disaster. The following sections of this plan outline basic responsibilities for all staff for specific incidents

The Cottonwood School has developed a Standardized Emergency Management System (SEMS) Plan that outlines in more detail specific responsibilities for Emergency Response Teams at this school.

This Emergency Action Plan is being developed to provide information to the staff at The Cottonwood School to ensure pertinent information is available in the case of an incident that warrants a response. It is written per the California Code of Regulations, Title 8, Section 3220, which outlines the components required for a plan. There are also components of the Standardized Emergency Management System (SEMS) and National Incident Management System (NIMS), including the Incident Command System incorporated in this plan. The purpose for the inclusion is that while The Cottonwood School may not have students on-site, it will serve as an Emergency Operations Center if a multi-site incident occurs and support is needed for the school or local community. At that time, The Cottonwood School's role would be to serve as a resource and clearinghouse for information.

The plan is developed with a multi-hazard perspective to make it applicable to the broadest range of emergencies and disasters, both natural and human-caused. However, Administrators retain the flexibility to modify procedures and/or organization structure as necessary to accomplish the emergency response and recovery missions in the context of a particular hazard scenario.

PLAN IMPLEMENTATION

A key component of this plan is the Incident Command System (ICS). The five basic functions of Management, Operations, Logistics, Planning/Intelligence, and Finance/Administration must remain consistent, but the formation of the teams within those sections can be flexible to meet each school's needs.

To properly complete the EOP, the school needs to: (1) Assign roles for Management staff and Section Chiefs (2) form the site emergency teams, (3) provide the appropriate training for all staff (4) conduct exercises to test the plan, and (5) update the plans as needed.

Employees shall be offered training on the specifics of this plan when it is initially developed and when new employees are hired. Employees should be retrained when the plan changes due to a change in the layout or design of the facility, when new equipment, hazardous materials, or processes are introduced that affect evacuation routes, or when new types of hazards are introduced that require special actions. It would also be helpful to provide annual awareness training as a reminder. General training for employees should address the following:

- Individual roles and responsibilities.
- Threats, hazards, and protective actions.
- Notification, warning, and communications procedures.
- Emergency response procedures.
- Evacuation, shelter, and accountability procedures.
- Location and use of common emergency equipment.
- Emergency shutdown procedures.

Additional training may also need to be provided (i.e., first-aid procedures, portable fire extinguisher use, etc.) depending on the responsibilities allocated to employees in the plan.

Once the emergency action plan has been reviewed with employees and everyone has had the proper training, it is good to hold practice drills as often as necessary to keep employees prepared. Include outside resources such as fire and police departments when possible. After each drill, gather management and employees to evaluate the effectiveness of the drill. Identify the strengths and weaknesses of your plan and work to improve it.

ABOUT EMERGENCY MANAGEMENT SYSTEMS

Through the years, those agencies responsible for disaster response have come up with several different models for coordinating that response. Although these models differ, they share a common background: The Incident Command System (ICS). As a member of your school's emergency response team, you will need to be familiar with ICS and the emergency management systems used in California.

Incident Command System (ICS) Developed in the 1970s by Southern California Fire Protection Agencies; this system was designed to coordinate a multi-jurisdictional response. The beauty of ICS is that it is based upon common terminology and on the division of response activities into five functional units that nearly eliminates the possibility of the duplication of efforts. ICS became the model for the state's system.

Standardized Emergency Management System (SEMS) Developed in response to the lack of agency and multi-jurisdictional coordination during the Oakland Fires of 1991, SEMS became the state-wide standard for coordinated emergency response. All agencies involved in emergency response are legally required to use SEMS. The **STATE** reimbursement of local costs incurred for emergency response/recovery is tied to the use of SEMS.

National Incident Management System (NIMS) After the national tragedy on September 11, 2001, it became clear that the country needed an emergency response system to address incidents that affected the entire nation. The federal government looked at the system used in California and used it as a model to develop a national response system called NIMS. It is a FEMA approved emergency response system and will become the national model. National compliance was expected by 2006 but is still in progress. **FEDERAL** funding for emergency response/recovery grants is tied to the use of NIMS.

SCHOOL RESPONSE

In 1994 the State of California legislators passed the Petris Bill. This bill *requires* schools (who are considered to be special districts) to use the SEMS model in planning for, and responding to, school emergencies and disasters. HOMELAND SECURITY PRESIDENTIAL DIRECTIVE HSPD-5, which mandated the development and implementation of NIMS, now requires schools to integrate that system into their plans as well.

WHAT SPECIFIC LAWS* APPLY TO SCHOOLS

THE FIELD ACT

(Garrison Act and Riley Act)

Sets building code standards for construction and remodeling of public schools and assigns the responsibility for assuring building code compliance to the Division of the State Architect.

THE KATZ ACT

Requires schools to establish an earthquake emergency system:

- Develop a disaster plan
- Conduct periodic drop and cover drills, evacuation procedures, and emergency response actions—once each quarter in elementary schools and once each semester in secondary schools
- Provide training to students and staff in emergency response procedures
- Be prepared to have your school serve as a possible public shelter
- Take mitigation measures to ensure the safety of students and staff—such as securing equipment and furniture.

PUBLIC EMPLOYEES ARE DISASTER SERVICE WORKERS

California Government Code Section 3100

All school employees are considered disaster service workers when:

- A local emergency has been proclaimed
- A state emergency has been proclaimed
- or,*
- A federal disaster declaration has been made

NOTE: During a declared disaster, school employees are required, by law, to serve as disaster service workers and cannot leave their school site until formally released.

- Certificated employees risk losing their teaching credentials
- Classified employees may be charged with a misdemeanor

*This is not a legal opinion; confirmation is required to determine if your organization is exempt from any regulations targeting schools. The assumption is that the laws apply to all public schools.

POST-DISASTER SHELTERS

Schools are required by both federal statute and state regulation to be available for shelters following a disaster.

- The American Red Cross has access to schools to set up shelters
- Local governments have access to schools to set up shelters
- Plan and make arrangements in advance to ensure that you are prepared.

THE PETRIS BILL

California Government Code Section 8607

Requires schools to respond to disasters using the Standardized Emergency Management System (SEMS) by December 1996.

- ICS - (Incident Command System) organizing response efforts into five basic functions: Management, Operations, Logistics, Planning/Intelligence and Finance/Administration
- EOC - (Emergency Operations Center) setting up a central area of control using the five basic functions
- Coordinate all efforts with the operational area (county) EOC, city EOC, and county office of education EOC
- Incorporation of SEMS into all school plans, training, and drills
- Documentation of the use of SEMS during an actual emergency

HOMELAND SECURITY PRESIDENTIAL DIRECTIVE HSPD-5

February 28, 2003

On February 28, 2003, President George W. Bush issued Homeland Security Presidential Directive 5 (HSPD-5). HSPD-5 directed the Secretary of Homeland Security to develop and administer a National Incident Management System (NIMS).

HSPD-5 requires Federal departments and agencies to make the adoption of NIMS by state and local organizations a condition for Federal preparedness assistance (grants, contracts, and other activities) by Fiscal Year 2005.

NIMS training requirements: All school employees (as designated Disaster Services Workers) are to complete ICS100, ICS200, and IS700.)

USING SEMS AND NIMS IN YOUR SCHOOL - AN OVERVIEW

Within SEMS and NIMS, an emergency response organization, known as the Incident Command System, consists of five Sections:

Management: responsible for policymaking with respect to disaster planning and preparedness and for the overall coordination of emergency response and recovery activities. This section has four members, the EOC Director/Incident Commander (IC), the Public Information Officer (PIO), the Safety Officer, and the Liaison Officer (LO). In short: they are *the leaders*.

Planning/Intelligence: responsible for creating the action plans and checklists that will be used by all of the sections during crisis response and recovery. The section is comprised of two teams: the Situation Status Team and the Documentation Team. During an emergency, these teams gather, analyze, disseminate, and record information critical to the functioning of the Management Section. Planning/Intelligence are often referred to as *the thinkers*.

Operations: responsible for response preparedness of the Assembly/Shelter, Communications, Crisis Intervention, Light Search and Rescue, First Aid, Student Release/Staff Accounting, and Maintenance/Fire/Site Security Teams. During a disaster, this section directs response activities of all of these teams and coordinates that response with the Management Section. These folks represent *the doers*.

Logistics: prior to a disaster, this section is in charge of creating a transportation plan, and ensuring that there are adequate supplies of food, water, and equipment for crisis response. During an emergency, the section's two teams, the Supplies/Staffing Team and the Transportation Team provide services, personnel, equipment, materials, and facilities, as needed. They are *the getters*.

Finance/Administration: in charge of creating policies and procedures for documenting costs associated with emergency response. This section has one team, called the Recordkeeping Team. During a disaster, they activate contracts with vendors, keep time records, track receipts, and account for expenditures. Their efforts make it possible for schools to reclaim costs associated with response and recovery activities from the state. They also gather all paperwork and documentation at the end of the incident for inclusion in the After Action Report (AAR). They are called *the payers*.

THE EMERGENCY OPERATIONS CENTER

During an emergency, the Management Section gathers together in an area/room to set-up a “command center,” also known as the Emergency Operations Center (EOC). In the EOC, the Management Section makes decisions affecting response activities based upon information coming in from the Section Chiefs.

A Word About Unified Command

The control of and response to emergencies is the sole responsibility of the site teams *until* first responders arrive. Once they arrive, the incident command transitions to **“Unified Command.”** This transition is immediately facilitated by an on-site briefing of first responders by the Management Staff and Section Chiefs. Following the initial briefing, the site’s Incident Commander will begin to work closely with representatives of each response agency to plan and carry out response activities. Other employees may be asked to participate as well, depending upon the incident at hand and the available staffing of emergency responders. All staff should be prepared to participate if necessary.

In the EOC, this means that first responder representatives will essentially be running response activities in consultation with the organization’s Management Staff and Section Chiefs. In the field, Team Leaders and Team Members will work alongside first response teams *unless* the EOC Director/Incident Commander has deemed it is too dangerous or unsafe for them to do so. *Remember*, first responders, are professionals. Work with them and take your cues from them.

The Dual Role of the School Office

- The School must organize to respond to incidents that occur at their location
 - Ensure that the School has a functional Emergency Action Plan
 - Ensure that School staff are trained and well prepared
- The School office must also organize to provide support when the incident happens at school sites within the organization
 - Provide leadership
 - Provide assistance with response and recovery when needed
 - Ensure that school staff are trained and well prepared
 - Ensure that each school has a functional Emergency Operations Plan

INCIDENT COMMAND SYSTEM AND DIVISION OF LABOR

Divisions of Labor

Each one of the five functions have certain roles and responsibilities during a disaster or school emergency. The Management Section oversees response activities in consultation with the Chiefs of the Operations, Logistics, Planning/Intelligence, and Administration/Finance Sections. Each of these sections, in turn, has a team or teams tasked with implementing very specific components of the emergency response plan.

The following Standard Operating Procedures have been developed to address a multitude of incidents that could occur at a school office or student location. This is a living document that should be updated and modified as additional information is acquired. A hazard assessment should be conducted to identify specific areas of concern for your location in order to maximize the number of response situations included in this plan.

EVACUATION PROCEDURES

Earthquakes, fire, bomb threats, hazardous chemical spills, or an incident on or near campus are just a few examples of an emergency incident situation that may require that portions of a building or an entire school building be evacuated.

The building Emergency Preparedness Committee should identify evacuation areas on-site and alternative off-sites areas should it be necessary to evacuate.

A safe evacuation route must be able to accommodate moving a large number of people while not exposing employees to danger. The location and type of emergency necessitate evaluation and possible adjustments to the usual evacuation routes. This evaluation will determine if the building should be evacuated in segments or if stationing a person at certain specific exits is necessary so that staff can be re-routed away from danger.

The movement of staff out of buildings requires accounting for every employee. In order to account for staff, work area supervisors must have available employee lists so that missing or extra staff can be reported immediately to the Command Posts (school; law enforcement; fire). When evacuating their work area, work site supervisors must bring the location roster and emergency supplies.

During an evacuation, the following procedures must be followed:

- ✓ Move staff to the designated Evacuation Area.
- ✓ Take roll by completing the Staff Accountability Form
- ✓ Runners collect Staff Accountability Report from classroom or work areas.
- ✓ If the employee has an assignment on the Emergency Management Team Organizational Chart, report to the Command Post (CP) and signs in.
- ✓ Report to Incident Commander (IC) for briefing and assignment.

LOCKDOWN/REVERSE EVACUATION PROCEDURES

Some emergencies may prevent safe evacuation and require steps to isolate staff from danger by instituting a lockdown. Other emergencies may occur prior to the work day, during break or lunch periods, or after the work day. When staff may be outside the school building or work site, a reverse evacuation should be initiated.

All employees must be familiar with the specific actions they must take during a lockdown or reverse evacuation. Discussions, training, and practice drills are essential to make these procedures workable.

In the event of a lockdown or reverse evacuation, work area supervisors must utilize the following procedures:

- ✓ If outside, move to the nearest building or room, providing it is a safe route and that you are not moving in the direction of danger.
- ✓ If inside, stay inside.
- ✓ Lock door(s) to buildings and or work areas.
- ✓ If possible, quickly close all windows and then move away from the windows.
- ✓ Use caution when allowing late reporting staff to enter into a classroom.
- ✓ Have staff hide, if appropriate.
- ✓ Take roll using Staff Accountability Form.

Report any “extra” staff that sought cover in your work area. Take this form with you if you are directed by the Incident Commander to evacuate your work area at a later time.

- ✓ Await further instructions from the Incident Commander via public address system, phone, or e-mail notification to all staff.
- ✓ **DO NOT** use the telephone to call out as all lines must be kept open unless there is a dire emergency in your work area.
- ✓ Remain in the room/office until a member of the Emergency Management Team or a law enforcement officer arrives with directions.

PROCEDURES FOR CONDUCTING A “SIZE-UP”

A “**SIZE-UP**” is a nine-step continual data gathering process that determines if it is safe to perform a certain emergency task, whether fire suppression, search and rescue, facilities assessment, etc. A size-up enables first responders to make decisions and respond appropriately in the areas of greatest need. The nine steps in a “**size-up**” are:

1. Gather Facts:

- What has happened?
- How many people are involved?
- What is the current situation?
- Does the time of day or week affect this situation?
- Do weather conditions affect the situation (e.g., forecast, temperature, wind, rain)?
- What type(s) of structures are involved?
- Are buildings occupied? If yes, how many?
- Are there special considerations involved (e.g., children, elderly, disabled)?
- Are hazardous materials involved at or near the situation?
- Are other types of hazards likely to be involved?

2. Assess and Communicate the Damage:

- Take a lap around each building and determine what has happened, what is happening now, and what may happen next.
- Are normal communications channels functioning (e.g., ICS, radios, e-mail, phones)?

3. Consider Probabilities:

- What is likely to happen?
- What is the worst-case scenario?

4. Assess Your Situation:

- Are you in immediate danger?
- Have you been trained to handle this situation?
- What resources are available which can assist with your current situation?

5. Establish Priorities:

- Are lives at risk? Remember, life safety is the first priority!
- Can you and available resources handle this situation SAFELY without putting others at risk?
- Are there more pressing needs at the moment? If yes, what are they?

6. Make Decisions:

- Base decisions on the answers to Steps 1 through 3 and the priorities that your team has established.
- Where will the deployment of resources do the most good while maintaining an adequate margin of safety?

7. Develop an INCIDENT ACTION PLAN:

- Develop a plan that will help you accomplish your priorities.
- Simple plans may be verbal, but more complex plans should always be written.
- Determine how personnel and other resources should be deployed.

8. Take Action:

- Execute your plan, documenting deviations and status changes so that you can accurately report the situation to first responders, the Incident Command Post, the EOC, or other agencies that respond to the scene (e.g., fire, law enforcement, medical, media, coroner, parents).

9. Evaluate Progress:

- At reasonable intervals, evaluate progress in accomplishing the objectives in the plan of action (Incident Action Plan) to determine what is working and what changes you may have to make to stabilize the situation.

BOMB THREAT

TELEPHONE BOMB THREAT

- During the call, complete the bomb threat checklist found on the next page.
- Stay on the line with the caller as long as possible, continuing to try and obtain more information about the threat.
- Have someone else call **911** and notify the School office.
- Without using portable radios or cell phones, organize a meeting with the school's Emergency Management Team (EMT). Radio and cell phone usage can resume once you are 300 feet away from school premises as a bomb could be hidden outside.
- If necessary, implement the ICS with only those positions deemed required.
- Assign a recorder to document events as they take place.
- Any search of the site should be done under the direction of law enforcement.
- The decision to evacuate the location is the responsibility of the Executive Director or his/her designee.
- If an evacuation is ordered, do not touch anything while leaving the building. Report any suspicious items to the Incident Commander.
- Follow off-site evacuation procedures.
- If the caller identifies a location where the device has been placed, avoid evacuating through the identified area.
- EMT members responsible for off-site evacuation and student accounting should begin making preparations for an orderly transition of the students/staff to the evacuation site.
- If an announcement is made over the school PA to evacuate, remind teachers and site supervisors to bring their class or work area rosters and emergency supplies.
- When the off-site evacuation location is reached, account for all students and staff. Report missing students/staff to the Incident Commander. The Incident Commander will report missing students/staff to the law enforcement agency assisting with the evacuation.
- Re-entry onto the school campus can only take place at the direction of the Incident Commander.

E-MAIL BOMB THREAT

- Save the e-mail message.

- Print a copy of the message and give it to the Executive Director, law enforcement, and the Technology Department.
- Follow applicable procedures from above.

FIRE/EXPLOSION

Apart from arson, major causes of fires include improper handling and storage of flammable liquids, overloaded electrical outlets, and excessive accumulation of rubbish.

FIRE DRILL PROCEDURES

- NO advance notice of fire drills should be given to building occupants.
- All drills shall be conducted using the same procedures that would be followed in case of an actual fire.
- Fire drills should be conducted at different hours of the day. Twice per year
- An appropriate number of staff members should know how to reset the fire alarm.
- Immediately after the alarm has sounded for the drill, call the Fire Department non-emergency number to advise that this is only a drill.
- Keep documentation for each drill and record notable events for future consideration/improvement.

POSTING OF EVACUATION ROUTES

- A map, showing the primary and secondary evacuation routes shall be posted inside each room. The evacuation map shall have the office location highlighted and be placed on the wall so that an arrow indicating the exit route is pointing in the direction of the exit from the room.
- The map shall be labeled “**EVACUATION PLAN**” in bold letters and prominently posted in hallways, offices, bathrooms, cafeterias, lounges.

FIRE/EXPLOSION CHECKLIST

- If fire or smoke is detected, or a burning odor is sensed, pull the closest fire alarm to initiate building evacuation procedures.
- Call **911** to report all known information about the incident.
- Site administration should assign a recorder to begin documentation of the event.
- Before leaving a work area, the work area supervisor or their designee should make sure all windows are closed.
- Procedures for anyone with special-needs should be planned in advance and practiced.
- Administration should initiate the Incident Command System (ICS) and the designee assumes the role of the Incident Commander (IC) and establishes a Command Post staging area.
- Supervisors are to complete the Staff Accountability Report.
- Data collected from the **Staff Accountability Form** will determine if the Incident Commander needs to activate additional portions of the ICS, such as First Aid, Medical, Search and Locate/Rescue, etc.
- Establish contact with fire and law enforcement agencies.
- The fire department will give clearance to site administration when it is OK for staff to re-enter the building or an alternative plan if the building will not be able to be occupied.

EARTHQUAKE

An earthquake's effect on facilities will vary from building to building. The shaking may activate fire alarm or sprinkler systems. Elevators and stairways will need to be inspected for damage before they can be used. Another major threat during an earthquake is from falling objects and debris. Injuries may be sustained during the earthquake while evacuating the building(s) or upon re-entry. Use the following guidelines/procedures to manage the incident:

IF INDOORS

- **DROP, COVER, AND HOLD ON** by getting under a desk or table. Protect eyes, head, and neck.
- Move away from windows and objects that could fall.
- Stay under a desk or table until shaking stops.
- Listen for emergency instructions.
- Evacuate the building if necessary and stay away from buildings, utility poles, and large objects while transferring to the assembly area.
- Account for all staff using the Staff Accountability Report.

IF OUTDOORS

- Move away from buildings, utility poles, and large objects.
- Avoid all downed electrical lines.
- Do not touch any wire or any metal objects.
- Sit down in a safe area.
- Move to the assembly area and begin accounting for all staff.

IN VEHICLE:

- Stop the vehicle in a safe location away from power lines, overpasses, or buildings.
- Stay in the vehicle and establish radio contact with the School office.

GENERAL GUIDELINES (AFTER THE QUAKE):

- Be prepared for aftershocks and ground motion.
- Evaluate immediate area for earthquake-related hazards (fire, building collapse, gas leaks, downed electrical lines, wires, etc.).
- Account for all staff.
- Activate necessary portions of the ICS in collaboration with the site emergency team.
- Determine injuries and provide basic first aid via Medical/First Aid Group.
- Call **911** if there is a major emergency that is life-threatening. You may not get a response from **911** if a major disaster has occurred, affecting a large local area. **As we have been warned, we may be on our own for several hours or days.**
- Establish communication with your Supervisor and Incident Commander
- Assist any law enforcement or fire units that may respond to your site.
- Control internal and external communications, including contact with school sites and city agencies by use of telephones, cell phones, radios, runners, e-mail, text messages, or other means.
- Refer all media inquiries to the PIO.
- In communication with the school sites, assess the overall situation, how long students and staff might be at school, how supplies might be distributed, and sheltering of students and staff.

SHOOTING/STABBINGS

No single warning sign can predict that a dangerous act will occur; however, certain warning signs may indicate that someone is close to behaving in a potentially dangerous way to self and/or others. Imminent warning signs are usually present as a sequence of overt, serious, or hostile behaviors or threats directed at peers, staff (usually more than one staff member), and the person's immediate family.

IMMINENT WARNING SIGNS REQUIRE AN IMMEDIATE RESPONSE AND MAY INCLUDE THE FOLLOWING

- Physically fighting with peers or family members.
- Hostile interactions with law enforcement that involve a number of recorded incidents.
- Hostile interactions with staff and administration.
- Destruction of property (school, home, community).
- Severe rage for seemingly minor reasons.
- Detailed (time, place, and method) threats (written and/or oral) to harm or kill others.
- Possession and/or use of firearms and other weapons.
- Self-injurious behaviors or threats of suicide.
- Is carrying a weapon, particularly a firearm, and has threatened to use it.

WHAT TO DO IF A SHOOTING/STABBING OCCURS AT THE SCHOOL OFFICE

- The first indications of a shooting may include: the sound of gunfire, loud cracking sounds, banging noises, windows shattering, glass exploding, bullets ricocheting, or a report of a stabbing incident on campus.
- Call **911**. Identify your address, and succinctly explain the emergency incident and exact location. Stay on the line until the **911** dispatcher has all the information needed to respond to the situation.
- Activate Incident Command System (ICS) with Emergency Management Team.
- Establish Command Post and appoint Incident Commander and communicate the location to law enforcement and fire/rescue units.
- Notify appropriate individuals, i.e., Administrators, Policy Group.
- Provide information, when practicable, about the incident to staff via the PA system, e-mail, or by phone.
- Account for all staff members by using phone or e-mail or other communication means. Attempt to determine if the shooter/stabber is still on the work site.
- Attempt to determine if the weapon has been found or secured.
- Attempt to determine if the shooter/stabber has been identified.
- Assign a liaison (preferably an administrator) to interface with law enforcement and the fire department.
- Liaison can supply law enforcement with radio or phone communication, phone numbers, maps, keys, and other information deemed pertinent to the safe operation of the incident.
- Gather witnesses in a secure room for law enforcement questioning. DO NOT allow witnesses to talk to one another (to protect the investigation). Assign staff to stay with witnesses until law enforcement arrives.
- Develop a plan to evacuate staff to an off-site or alternate evacuation area should it be necessary to evacuate the building.
- Gather information of staff members involved in the incident.
- Prepare written statements for telephone callers and media in cooperation with law enforcement and the Executive Director. Can a message be placed on the website?
- Provide a liaison representative for family members for any injured staff members.
- Provide Crisis Response Team to provide counseling and to help deal with any psychological factors.

IF STAFF ARE OUTSIDE, THEY SHOULD BE TRAINED AND/OR INSTRUCTED TO

- Move or crawl away from gunfire, trying to put barriers between you and the shooter.
- Understand that many barriers may visually conceal a person from gunfire but may not be bulletproof.
- Try to get behind or inside a building. Stay down and away from windows.
- When reaching a relatively safe area, stay down, and do not move. Do not peek or raise your head.
- Listen for directions from law enforcement.
- Provide your name to the work area supervisor who is accounting for all staff.
- Help others by being calm and quiet.
- Provide law enforcement with as much information as possible, such as:
 - ✓ Is the suspect still on-site, and do you know the current location?
 - ✓ Where was the specific location of occurrence?
 - ✓ Are there wounded staff members? How many?
 - ✓ Description of all weapons (handgun, shotgun, automatic, dangerous objects, explosive devices, other).
 - ✓ Describe sound and number of shots fired.

SCENE OF INCIDENT

- The scene of an incident/crime shall be preserved.
- With the exception of rescue and law enforcement personnel, no one is allowed to enter the immediate area or touch anything.
- Any witnesses, including staff members, should be held near the area of the incident, and be made available to law enforcement for questioning.
- Law enforcement responding to the incident will coordinate activities at the scene of the incident and finished release the area to school officials when finished.

DEATH AND/OR SUICIDE

Death at a workplace is rare; however, you should be prepared in the event of a death, whether it be caused by an earthquake, explosion, building collapse, fire, choking, heart attack, seizure, or an incident such as a shooting/stabbing, fight, suicide, etc.

Organizations should also be prepared for the sudden, unexpected death of a staff member or a family member that does not occur on the school campus (automobile accident, sudden death, drive-by shooting, gang violence, etc.).

Guidelines to utilize in the event of a death are outlined below.

DEATH OCCURS AT SCHOOL

- Call **911**. Identify your address and briefly outline the emergency and location on campus.
- Notify the school administration.
- Activate the Incident Command System if necessary and contact the school Emergency Management Team. Assign staff as needed.
- Notify the Managing Director's office.
- Isolate other staff from the scene.
- If there is a death, do not move the body. Law enforcement will contact the coroner's office so that the body can be removed, and any personal items of the victim can be returned to the family or secured as evidence.
- DO NOT disturb or touch anything if the event is declared a crime scene.
- Secure area with yellow caution tape and assign staff to guard area.
- Gather all witnesses and place them in a secure location. Tell witnesses not to discuss any part of their observations until law enforcement arrives to interview or release them. Assign staff to monitor witnesses.
- Consider the impact on staff. Activate the Crisis Response Team as appropriate.
- If the deceased is an employee, the Executive Director must notify Cal-OSHA within the 8-hour time requirement. Law enforcement or fire department may inform you they will contact Cal-OSHA; however, the School still must make certain it calls Cal-OSHA.
- Monitor staff emotional responses. Following a death there may be:
 - ✓ Self-referrals
 - ✓ Parent referrals
 - ✓ Reports and concerns expressed by relatives or good friends.
 - ✓ Students who have experienced a recent loss.
- Develop a list of students and staff members that are having emotional symptoms.

HOSTAGE SITUATIONS

In any hostage situation, the primary concern must be the safety of the staff.

Individuals who take hostages are frequently disturbed, and the key to dealing with them is to make every attempt to avoid antagonizing them. Communication and demeanor with a hostage-taker must be handled in a non-threatening, non-joking manner, always remembering that it may take very little to cause an individual to become violent.

IF THE OFFICE IS TAKEN HOSTAGE

- Do not use words such as “hostage,” “captives,” or “negotiate.”
- Stay calm.
- No heroics, challenges, or confrontation.
- Obey all commands.
- When safe, call **911**. Identify your work site and give the exact location in the building of the incident. Stay on the phone until law enforcement arrives to assume control of the situation.
- If possible, assign another staff member to notify the Site administrator.
- If possible, initiate a work site lockdown to stabilize areas around the incident and make for an easier evacuation.
- The work site emergency team shall activate the Incident Command System and make needed assignments, including staging a Command Post (CP) and appointing an Incident Commander (IC).
- If possible, the emergency team should provide law enforcement with a liaison from the work site. The liaison can assist in providing the name of IC, location of CP, and obtaining maps, keys, radio, and phone numbers, etc.
- Keep all radios, television sets, and computers turned off to minimize any possibility that suspect can hear or see “NEWS REPORTS.”
- Try to establish rapport with the suspect. Provide your first name. Find out his/her first name and use first names, including those of other staff members involved in the situation. If you do not know first names, refer to the hostage(s) as men and women.
- Be calm and patient and wait for help. Keep in mind that the average hostage incident lasts approximately six (6) to eight (8) hours, and the average barricade incident lasts approximately three (3) hours. **TIME IS ON YOUR SIDE.**
- Anticipate a point of law enforcement entry, rescue, and how suspects will be apprehended.

WHEN THE HOSTAGE LOCATION IS OTHER THAN AN OFFICE

- Immediately call **911**. Identify your address and the situation, providing the exact location of the incident. **STAY ON THE LINE UNTIL LAW ENFORCEMENT ARRIVES.**
- While on the phone with the **911** dispatcher, report the following if known:
 - ✓ Number of suspect(s)
 - ✓ Names(s) of suspect(s) (if known)
 - ✓ Description of suspect(s):
 - Male or Female
 - Race
 - Weight (Light; Lean; Heavy; Obese) stay away from using lbs.
 - Height (short; medium; tall) avoid using feet/inches
 - Hair
 - Eyes

- Approximate age
- Description of clothing
- Anything special or unusual, like:
 - Scars
 - Tattoos
 - Burn marks
 - Birthmarks
 - Pierced body parts
 - Jewelry
- ✓ Exact location of the suspect (building, room) and include North, South, East, or West in your directions.
- ✓ Approximate number of staff in hostage area.
- ✓ Are weapons or explosive devices involved?
- ✓ Have any shots been fired? If yes, describe the sound and number of shots fired.
- ✓ Are there reports of any injuries or emergency medical needs (medication)? Describe the exact location and condition of victim(s).
- ✓ Are there any demands the suspect has made?
- ✓ Is there any other background information, past problems with suspect, demeanor, possible motive, or vendettas against staff or particular staff member?

If the hostage situation is on one side of the building, law enforcement will likely want to enter from the other side. Inform law enforcement exactly where the “Hostage Situation” is located and advise law enforcement what you consider to be the best “other side” entrance for law enforcement response.

- If possible, assign another staff member to notify the Site Administrator.

WHILE WAITING FOR LAW ENFORCEMENT

- If you can safely communicate with other offices by phone, implement lockdown procedures. For this situation, **DO NOT** set off any alarms as the bell may cause staff to panic and rush into a dangerous area.
- **DO NOT EVACUATE** until instructed or escorted by law enforcement.
- Complete Staff Accountability Report.

ONCE LAW ENFORCEMENT ARRIVES

- Law enforcement will need assistance in identifying witnesses. Gather witnesses in a secure location but do not let them talk with one another (to protect the investigation).

THE SITE EMERGENCY TEAM SHOULD MAKE PLANS TO

- Establish their Command Posts and assignment of necessary personnel.
- Record all events.
- Account for all staff.
- Prepare for a possible off-site evacuation route and location.
- Establish a media staging area.
- Alert Crisis Response Team for possible counseling of staff.

HOSTILE VISITOR

A hostile visitor could be an irate parent, a staff member, a neighbor, or an acquaintance of a staff member. The situation may begin in the front office; however, the individual may bypass the office and go directly to the target

of his/her hostility. It is the responsibility of staff to protect staff, attempt to defuse the situation, and, if necessary, notify law enforcement.

UNDERSTANDING NONVERBAL MESSAGES

Body language plays a role in communication. Nonverbal cues are especially crucial when dealing with a person who is upset and potentially violent. Pay attention to signs that a person is angry or frightened. These include:

- Trembling
- Sweating
- A red face
- Crossed arms
- Clenched jaw or fists
- Shallow breathing
- Glaring or avoiding eye contact
- Pacing the floor
- Sneering
- Crying
- Ranting

SEND THE RIGHT NONVERBAL MESSAGES

Do not get too close. An angry or upset person feels threatened by someone who stands too close. Give the person two to four feet distance from you.

Avoid doing any of the following:

- Glaring or staring at the visitor
- Threatening mannerisms such as clenched fists and a raised voice.
- Getting angry

Consider doing the following:

- Be courteous and confident
- Do not touch the individual
- Protect yourself at all times
- Find another staff member to join you or keep the meeting in an open area
- Listen to the visitor, allowing him/her to vent
- Do not disregard the person's opinion or blame the person.

ATTEMPT TO USE PHRASES SUCH AS:

- What can we do to make this better?
- I understand the problem, and I am concerned.
- We need to work together on this problem.

WHAT TO DO:

- As soon as possible, call **911** and stay on the line. State your address and exact location of the hostile visitor. Identify building by letter (A, B, C, D, etc.) or number and use directions (North, South, East, or West) for law enforcement as they enter the grounds. Give a description of the hostile visitor.
- If possible, assign a staff member to meet law enforcement and direct them to the location.
- The staff member should unlock any gate that makes access to campus easier and faster.
- If possible, notify the Site Administrator.
- If necessary, activate the Incident Command System, using only those parts of ICS as determined by the information at hand. Expand ICS as needed.

- Use staff members to keep staff away from the location of the hostile visitor.

CHEMICAL RELEASE/ HAZARDOUS MATERIAL SPILL

A chemical release or hazardous material spill could affect one classroom, an entire worksite, or a larger area.

HOW SHOULD THE SCHOOL OFFICE PREPARE?

- The Emergency Management Teams should discuss and review plans to “Shelter in Place” or to “Evacuate the Area” using an alternative evacuation staging area.
- Staff should be trained to know what type of Personal Protective Equipment (PPE) and clothing to wear when handling hazardous material. The type of PPE to be worn, if any, is contained in the Safety Data Sheet (SDS).
- Staff utilizing or handling any hazardous material should know the symptoms of exposure, emergency first aid, and treatment for exposure.
- All hazardous materials should be stored in a manner prescribed on the SDS.

HOW SHOULD THE SCHOOL OR DISTRICT RESPOND?

- If a hazardous spill or chemical release occurs within any area of the School office, immediately notify **911**. Inform the dispatcher of your school/address and a brief summary of the problem, including the name of the hazardous material/chemical, location of the spill, and a report of any injuries, illnesses, fire, explosion, etc.
- Approach incident from upwind.
- Stay clear of all spills (vapors, fumes, smoke, fire, the possibility of an explosion, other).
- Notify Site Administrator.
- Activate necessary portions of Incident Command System (ICS) and appoint Incident Commander. Expand ICS as needed and make necessary assignments appropriate to the incident.
- Begin documentation of events.
- The situation or advice from law enforcement, the fire department, or a hazardous materials unit deployed to the scene of the spill will determine whether to “Shelter-In-Place” or to “Evacuate” the building. If evacuation is ordered, instruct staff always to move crosswind and upwind. Never move downwind into a chemical. To check wind direction, look at the movement of trees or flag.
- If “Sheltering-In-Place” and, if possible, shut off all air-conditioning and heating units. Close all windows and door openings and try to seal gaps under doorways and windows with wet cloth or towels.
- Close all shades or drapes. Instruct staff to stay away from windows.
- If gas or vapors have entered the building, take shallow breaths through a cloth or towel.
- Keep telephone lines clear for emergency calls.
- If an evacuation is ordered, follow all instructions.
- Upon reaching an alternative evacuation area, take a head count and report missing or ill staff to Incident Commander and/or law enforcement.

MEDICAL EMERGENCY

Occasionally a medical emergency will occur, and personnel must be prepared to respond quickly, effectively, and efficiently.

SOME EMERGENCY PREVENTION/PREPAREDNESS GUIDELINES

- Insist that all accidents be reported, even if no visible harm or injury occurred.
- Follow established procedures for issuing medication.

WHAT TO DO IF A MEDICAL EMERGENCY OCCURS

- Assess the seriousness of the injury and/or illness by doing START (Simple Triage and Rapid Treatment, commonly called Thirty-Two-Can Do). If a staff member fails any of the three simple tests (Respirations, Perfusion, and Mental), their medical status is IMMEDIATE (RED). Administer first aid or CPR as needed.
- Call **911** and be prepared to provide:
 - ✓ Your address, building letter (A, B, C, D, etc.), room or floor number
 - ✓ Describe illness or type of injury
 - ✓ How the illness or type of injury occurred
 - ✓ Age of ill or injured staff member
 - ✓ Quickest way for ambulance to enter location on site
- Notify the Executive Director.
- Assign a staff member to meet and direct rescue services to the location of the injured party.
- Notify staff member's family of the situation, including the type of injury/illness, medical care being given, and location where staff has been transported.
- When appropriate, advise other staff of the situation.
- Follow-up with staff member's family.

GAS ODOR/LEAK

Natural gas has an additive that gives off a distinct odor allowing you to detect (smell) a leak. In most cases, handling a gas leak involves:

- Isolating the area and moving staff to safety.
- Eliminating potential ignition sources.
- Securing the leak.

The primary responsibility of the worksite staff is to determine how to safely house or evacuate staff and to protect property. The following agencies should be contacted:

- Fire Department (Call **911**)
- Site Administrator. Have a phone number for a point of contact if a leak is detected after business hours. (see emergency contact list)
- Local Gas Company

GAS ODOR OR LEAK INSIDE A BUILDING

- Evacuate the building(s) and move to a safe assembly area as far away as possible from the targeted building.
- Assign Emergency Management Team members to direct staff evacuating other buildings to stay away from the building with odor/leak.
- If necessary, activate the Incident Command System and establish Command Post.
- Begin completing Staff Accountability Report.
- Report any missing students and staff to Command Post.
- Assign a liaison to interact with Fire Department, Gas Company, or law enforcement.

IF GAS ODOR OR LEAK IS DETECTED OUTSIDE THE BUILDING

- It may not be necessary to evacuate the building. Evacuation is called for only if odor seeps into a building.

SHELTER-IN-PLACE PROCEDURES

Why You Might Need to Shelter-In-Place

Chemical, biological, or radiological contaminants may be released accidentally or intentionally into the environment. Should this occur, local authorities, TV or radio will provide information on how to protect staff. Because information will most likely be provided on television and radio, it is important to keep a TV or radio on, even during the workday or instructional time. The important thing is for you to follow the instructions of local authorities.

Following Are Actions to Follow at Your Worksite:

- Follow reverse evacuation procedures to bring students and staff indoors.
- If there are visitors in the building, provide for their safety by asking them to stay. When authorities provide directions to “shelter-in-place,” they want everyone to take those steps now, where they are, and not drive or walk outdoors.
- Provide for answering telephone inquiries by having at least one telephone available in the room selected to provide shelter for the Office Manager or the person designated to answer these calls. This room should also be sealed. There should be a way to communicate among all rooms where staff are sheltering-in-place.
- Ideally, provide a way to make announcements over the public address system from the room where the site administrator takes shelter.
- Provide directions to close and lock all windows, exterior doors, and any other openings to the outside.
- If there is a danger of an explosion, direct that window shades, blinds, or curtains be closed.
- Have employees familiar with the building’s mechanical system turn off all fans, heating, and air conditioning systems. Some systems automatically provide for an exchange of inside air with outside air – these systems, in particular, need to be turned off, sealed, or disabled.
- Gather essential disaster supplies, such as nonperishable food, bottled water, battery-powered radios, first aid supplies, flashlights, batteries, duct tape, plastic sheeting, and plastic garbage bags.
- Designate interior rooms(s) above the ground floor with the fewest windows or vents. The room(s) should have adequate space for everyone to be able to sit in. Avoid overcrowding by selecting several rooms if necessary. Large storage closets, utility rooms, meeting rooms, or conference rooms without exterior windows will also work well.
- Call emergency contacts and have the phone available if you need to report a life-threatening condition.
- Bring everyone into the rooms that have been designated. Shut and lock the door.
- Use duct tape and plastic sheeting (heavier than food wrap) to seal all cracks around the doors and any vents into the room. Consider precutting plastic sheeting to seal windows, doors, and vents. Each piece should be several inches larger than the space you want to cover so that it lies flat against the wall or ceiling/. Label each piece with the location of where it fits.

EXTENDED POWER LOSS

In the event of extended power loss to a facility, certain precautionary measures should be taken depending on the geographical location and environment of the facility:

- Unnecessary electrical equipment and appliances should be turned off in the event that power restoration would surge, causing damage to electronics and affecting sensitive equipment.
- Facilities with freezing temperatures should turn off and drain the following lines in the event of a long-term power loss.
 - Fire sprinkler system
 - Standpipes
 - Potable water lines
 - Toilets
- Add propylene-glycol to drains to prevent traps from freezing
- Equipment that contains fluids that may freeze due to long term exposure to freezing temperatures should be moved to heated areas, drained of liquids, or provided with auxiliary heat sources.

Upon Restoration of heat and power:

- Electronic equipment should be brought up to ambient temperatures before energizing to prevent condensate from forming on circuitry.
- Fire and potable water piping should be checked for leaks from freeze damage after the heat has been restored to the facility and water turned back on.

GUIDELINES FOR SPEAKING TO THE MEDIA

When speaking to the media about emergencies, it is imperative to adhere to the following guidelines:

- **READ** all press statements

Board Policy for Suspensions and Expulsions

Philosophy of Student Discipline

Our focus for all students is to be respectful and supportive of each other.

Comprehensive School Safety Plan

The Cottonwood School
Section D: Suspension/Expulsions policies and procedures - Ed Code 48915
Part 1: Definitions/Due Process/Rules and Procedures of School Discipline/Process and Procedures

Process and Procedures

Level I - Immediate Redirection and Verbal Reprimand

Minor issues that are resolved by the supervising adult; behavior is seen as a learning opportunity and is expected to be corrected with no additional interventions; office referral is only needed if the student fails to correct behavior (mostly classroom managed behavior)

Level II - Learning Opportunity~Office Referral, Parent contact, Counselor

Common misbehaviors needing redirection; again seen as a learning opportunity to be handled between the student and supervising adult; in some cases, office referral and parent notification is required (mostly managed with the teacher)

Level III – Immediate Administrative referral; Parent Contact/Written Documentation, suspensions, Law Enforcement

Severe misbehaviors with potentially strong consequences including school suspensions and legal involvement; supervising adult is not expected to engage in any learning, but rather immediately refer the student to the office and ensure the safety of staff and students (managed by the director)

Administrative Referral

In some cases, student behaviors do not get corrected or are so severe that they do not allow for a safe and purposeful learning environment. By referring a student to an administrator, the teacher is seeking additional resources to help correct the behavior. At this point, parents and school administration join the teacher to meet the student's behavioral needs.

The following process will be used for all office referrals:

- Student is referred to Administration by supervising adult
- Student completes reflection questions related to an incident
- Referral form is returned to the teacher for comments
- Parental contact is made by the student or staff member to explain the incident and scheduled detention
- Referral form is returned to the Executive Director or designee
- Student conference with the Executive Director is scheduled

Section D: Suspension/Expulsions policies and procedures - Ed Code 48915
Part 1: Definitions/Due Process/Rules and Procedures of School Discipline/Process and Procedures

- Follow-up phone call from Administration is made when necessary
- Harassment Complaints- Students are occasionally the victim of bullying or harassing behaviors. While common in the school setting, such behaviors are not acceptable and will not be tolerated at any function of our school community.

The following process is designed to assist students who believe they are the victim of such behaviors:

- Student informs teacher or staff person of the situation
- Student reports to the office to complete a confidential “Harassment Complaint Form.”
- Administrator investigates allegations

Typical consequences for a bully/harasser are as follows:

Warning- conference with Executive Director or designee discussing allegations, perceived intentions, and future consequences; the student is informed that such behavior, as well as any retaliation, will not be tolerated.

Parental Conference- Sharing the dangers of bully/harassing behaviors for both parties.

Suspension- To ensure the safety of staff and students, various forms of suspension may be used in efforts to correct student behavior.

Expulsion- If bullying/harassment continues or if any given incident is so severe that a safe learning environment cannot exist, the Executive Director will recommend the expulsion of the offending student.

- The Cottonwood School is committed to promoting learning and protecting the safety and well-being of all students at the Charter School. In creating this policy, the Charter School has reviewed Education Code Section 48900 *et seq.* which describes the non-charter schools’ list of offenses and procedures to establish its list of offenses and procedures for suspensions and expulsions. Charter School staff shall enforce disciplinary rules and procedures fairly and consistently among all students. This Policy and its Procedures will be printed and distributed as part of the Parent-Student Handbook and will clearly describe discipline expectations. Corporal punishment shall not be used as a disciplinary measure against any student. For purposes of the Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff, or other persons or to prevent damage to school property.

The Charter School administration shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline policies and procedures.

The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days' notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.

- The Charter School must also provide the victim with a room separate from the hearing room for the complaining witness' use before and during breaks in testimony.
- At the discretion of the entity conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.
- The entity conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
- The entity conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours he/she usually is in school if there is no reasonable cause to take the testimony during other hours.
- Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The entity conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.

If one or both of the support persons is also a witness, the Charter School must present evidence that the witness' presence is both desired by the witness and will be helpful to the Charter School. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.

- The testimony of the support person shall be presented before the testimony of the complaining witness, and the complaining witness shall be excluded from the courtroom during that testimony.
- Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the student being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness, and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
- Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or another support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

8. **Record of Hearing:** A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.
9. **Presentation of Evidence:** While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The Administrative Panel's recommendation to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Board or Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If due to a written request by the expelled student, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board, who will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten (10) school days following the conclusion of the hearing.

15. **Readmission:** The decision to readmit a student or to admit a previously expelled student from another school district or charter school shall be in the sole discretion of the Board following a meeting with the Director or designee and the student and guardian or representative to determine whether the student has completed the rehabilitation plan and to determine whether the student poses a threat to others or will be disruptive to the school environment. The Director or designee shall recommend the Board following the meeting regarding his or her determination. The Cottonwood School – Safe Ingress and Egress

The Cottonwood School takes pride in providing a safe environment for all students, parents, and school employees. Our School will ensure safe ingress and egress to and from school activities and functions for pupils, parents, and school employees. Safe ingress and egress will be maintained by periodic reviews of the procedures for ingress and egress. The school will ensure that all passageways to and from our buildings, corridors within buildings, and emergency exits remain clear of all obstruction to allow pedestrian and vehicular traffic flow. The school will also ensure that potential obstacles, and hazards are removed from such areas. To achieve this goal, the school works closely with local law enforcement agencies and the local city government to ensure that the school's immediate community is safe.

Through the joint efforts of The Cottonwood School office, site administrators, faculty, Safety Committee, PTSA, and other organizations, including consultants, The Cottonwood School has developed a plan to ensure the safe arrival and departure of students, staff, and visitors. The Cottonwood School encourages input from our community and reviews this plan on an annual basis.

The case manager will maintain a record of the services provided.

Each site will identify community resources to be used before, during, and after incidents of intimidation.

School Follow-up

The case manager has a responsibility to follow up and evaluate the behavior support plan. The case manager will compile a report to the site administrator on the process, resources used, and the follow up procedure involving the victim and the offender.

A copy of the behavior plan and follow-up report will then be forwarded to the Coordinator of Pupil Services.

Employee Qualifications and Scope of Services

Employees must act only within the authorization and scope of their credential or license. While it is expected that school professionals can identify suicide risk factors and warning signs and prevent the immediate risk of suicidal behavior, treatment of suicidal ideation is typically beyond the scope of services offered in the school setting. In addition, treatment of the mental health challenges often associated with suicidal thinking typically requires mental health resources beyond what schools are able to provide.

Intervention, Assessment, Referral

Staff

When a student is identified by a staff person as potentially suicidal, i.e., verbalizes about suicide, presents overt risk factors such as agitation or intoxication, the act of self-harm occurs, or a student self-refers, the parent, teacher, Student Support Team, and possibly the student will be contacted by a Mental Health Team within the same school day to assess risk and/or facilitate a referral.

1. School staff will recommend that the student is continuously supervised to ensure their safety.
2. The Mental Health Team and/or Student Support Team(s) will be informed and alerted of the situation as soon as reasonably possible through one or more of the following:
 - Email the Mental Health Team at mentalhealthteam@inspireschools.org
 - Complete the Mental Health Team's At-Risk Survey: [Student Mental Health Risk Report](#)
 - Complete the Student Support Team's Crisis Survey: [Student in Crisis](#)
3. The Mental Health Team and Student Support Team will contact the reporting school staff, as well as the student's parent or guardian, and will provide community-based resources and recommendations. When appropriate, this may include calling emergency services or bringing the student to the local hospital emergency department.

Designated members of the Mental Health Team should conduct a suicide risk assessment. The purpose of the assessment is to determine the level of risk and to identify the most appropriate actions to ensure the immediate and long-term safety and well-being of the student. This should be done by a team that includes school-employed mental health professional.

Caregiver notification is a vital part of suicide prevention. The appropriate caregiver(s) must always be contacted when signs of suicidal thinking and behavior are observed. Typically, this is the student's parent(s); however, when child abuse is suspected, protective services should be contacted. Even if a child is judged to be at low risk for suicidal behavior, schools may ask caregivers to sign a form to indicate that relevant information has been provided. Regardless, all caregiver notifications must be documented. Caregivers also provide critical information in determining the level of risk. Whether a student is in imminent danger or not, it is strongly recommended that lethal means are (i.e., guns, poisons, medications, and sharp objects) are removed or made inaccessible.

Refer to community services if warranted. Referral options to 24-hour community-based services should be identified in advance. It is best to obtain a release from the primary caregiver to facilitate the sharing of information between the school and community agency.

Document all actions

Supporting Students after a Mental Health Crisis

It is crucial that careful steps are taken to help provide mental health support for the student and to monitor their actions for any signs of suicide. The following steps should be implemented after the crisis:

Treat every threat with seriousness and approach with a calm manner; make the student a priority.

Listen actively and non-judgmental to the student. Let the student express his or her feelings.

Acknowledge the feelings and do not argue with the student.

Offer hope and let the student know they are safe and that help is provided. Do not promise confidentiality or cause stress.

Explain calmly and get the student to a trained professional, school psychologist, school counselor, or designated staff to further support the student.

Part 2: Suicide Prevention, Intervention and Postvention Protocol

Students

Each school site and program within shall identify, disseminate, and prominently display a process for students to safely notify a staff member when they are experiencing emotional distress or suicidal ideation or when they suspect or have knowledge of another student's emotional distress, suicidal ideation, or attempt.

Parental Notification and Involvement

Each school within shall identify a process to ensure continuing care for the student identified to be at risk of suicide. The following steps should be followed to ensure continuity of care:

After a referral is made for a student, school staff shall verify with the Parent/guardian/caregiver that follow-up treatment has been accessed. Parents/guardians/caregivers will be required to provide documentation of care for the student prior to returning to school.

If parents/guardians/caregivers refuse or neglect to access treatment for a student who has been identified to be at-risk for suicide or in emotional distress, the suicide prevention coordinator, administrator, or other mental health professionals will meet with the parents/guardians/caregivers to identify barriers to treatment (e.g., cultural stigma, financial issues) and work to rectify the situation and build an understanding of the importance of care. If follow-up care for the student is still not provided, school staff should consider contacting Child Protective Services (CPS) to report neglect of the youth.

A written authorization to exchange/release information should be completed by the parents/guardians/caregivers, and appropriate school staff (e.g., school psychologist, school counselor, and/or nurse) should consult with outside mental health or medical treatment team.

Action Plan for In-School Suicide Attempts

Each school site and program within shall follow the following action plan to immediately address in-school suicide attempts. If a suicide attempt is made during the school day on campus, it is important to remember that the health and safety of the student and those around him/her is critical. The urgency of the situation will dictate the order and applicability in which the subsequent steps are followed:

Remain calm, remember the student is overwhelmed, confused, and emotionally distressed.

Move all other students out of the immediate area.

Immediately contact the administrator and suicide, prevention coordinator.

Call 911 and give them as much information about the situation as possible.

If needed, provide medical first aid until a medical professional is available.

Parents/guardians/caregivers should be contacted as soon as possible.

Do not send the student away or leave them alone, even if they need to go to the restroom.

Listen and prompt the student to talk.

Review options and resources of people who can help.

Be comfortable with moments of silence as you and the student will need time to process the situation.

Provide comfort to the student.

Promise privacy and help, and be respectful, but do not promise confidentiality.

A student should only be released to parents/guardians/caregivers or to a person who is qualified and trained to provide help.

Follow procedures for re-entry to School After a Suicide Attempt.

Action Plan for Out-of-School Suicide Attempts

If a suicide attempt by a student is outside of the property, it is crucial to protect the privacy of the student and maintain a confidential record of the actions taken to intervene, support, and protect the student. The following steps should be implemented:

Contact the parents/guardians/caregivers and offer support to the family.

Discuss with the family how they would like the school to respond to the attempt while minimizing widespread rumors among teachers, staff, and students.

Obtain permission from the parents/guardians/caregivers to share information to ensure the facts regarding the crisis is correct.

Designate a staff member to handle media requests.

Provide care and determine appropriate support to affected students.

Follow procedures for re-entry to School After a Suicide Attempt.

Re-Entry to School After a Suicide Attempt

A student who threatened or attempted suicide is at a higher risk for suicide in the months following the crisis. Having a streamlined and well-planned re-entry process ensures the safety and wellbeing of students who have previously attempted suicide and reduces the risk of another attempt. An appropriate re-entry process is an essential component of suicide prevention. Involving students in planning for their return to school provides them with a sense of control, personal responsibility, and empowerment.

A student returning to school following hospitalization, including psychiatric and drug or alcohol inpatient treatment, must have written permission by the health care provider to attend school.

A written authorization to exchange/release information should be completed by the parents/guardians/caregivers, and appropriate school staff (e.g., school psychologist, school counselor, and/or nurse) should consult with the outside mental health or medical treatment team.

If the student has been out of school for any length of time, including mental health hospitalization, the school site administrator or designee should hold a re-entry meeting with key support staff, parent/guardian/caregiver, and student to facilitate a successful transition back into school.

The re-entry meeting should include a review of the authorization for return and documentation provided by the outside mental health or medical treatment team.

The documentation provided should be considered in the development of a student safety plan for re-entry.

The school team should confer with students and parents/guardians/caregivers about any specific requests on how to handle the re-entry.

Inform the student's teachers about possible days of absences.

Allow accommodations for the student to make up work (understand that missed assignments may add stress to the student).

Mental health professionals or trusted staff members should maintain ongoing contact to monitor student's actions and moods as part of the student safety plan.

Work with parents/guardians/caregivers to involve the student in an aftercare plan.

POSTVENTION

A death by suicide in the school community (whether by a student or staff member) can have devastating consequences on students and staff. Therefore, it is vital to be prepared ahead of time in the event of such a tragedy. The following are general procedures for the school administrator/director in the event of completed suicide:

Gather pertinent information

Confirm cause of death is the result of suicide if this information is available.

Identify a staff member to be the point of contact with the family of the deceased.

Information about the cause of death should not be disclosed to the school community until the family has been consulted and has consented to the disclosure.

Assemble district crisis response team

District crisis response team to determine initial response procedures and obtain consultation regarding the number of personnel needed for an initial response. It is helpful to have the following information available for consultation:

- Demographic information
- Siblings (If any within)
- School Profile
- Known friends/groups
- Identification of additional high-risk students

Staff notification

Concerns and wishes of family members regarding disclosure of the death and cause of death should always be taken into consideration when providing facts to students, staff, and parents. Some actions to consider:

Assess the extent and degree of psychological trauma and impact on the school community

Establish a plan to notify staff of death once consent is obtained by the family of the deceased.

Notification of staff is recommended as soon as possible (In person if possible).

To dispel rumors, share accurate information and all known facts about death.

Emphasize that no one event is to blame for suicide. Suicide is complex and cannot be simplified by blaming individuals, drugs, music, and/or school.

Allow staff to express their own reactions and grief; identify anyone who may need additional support and provide resources.

Notification of students should be done in small group settings, such as in the classroom. Do not notify students using a public announcement system.

To the extent possible, students should be notified in the same time period to minimize rumors.

When possible, the news should be delivered by staff with whom the students are most familiar and comfortable.

Provide staff with a scripted notification of death for students and

Prepare staff for potential reactions and questions. Review student support plan making sure to clarify procedures and locations for crisis counseling.

Define triage procedures for students and staff who may need additional support in coping with death.

Identify a lead crisis response staff member to assist with the coordination of crisis counseling and support services.

Identify locations on campus to provide crisis counseling to students, staff, and parents, as needed.

Identify a mental health professional (School psychologist or school counselor) to check in with students previously identified to be at risk for suicide.

Request substitute teachers, as needed.

Maintain sign-in sheets and documentation on individual's services for follow up, as needed.

Provide students, staff, or parents/guardians/caretakers with after-hours resource numbers such as the 24/7 Suicide Prevention Crisis Line.

Refer students or staff who require a higher level of care for additional services such as a community mental health provider or their health care provider. Indicators of students and staff in need of additional support and/or referral may include the following:

Persons unable to control crying

Persons with multiple traumatic experiences may have strong reactions that require additional assistance.

Document

School administration shall maintain records and documentation of actions taken at the school site.

Monitor and manage

School administration, with support from the district crisis team, should monitor and manage the situation as it develops to determine to follow-up actions and continued support plans.

Communicate with the larger school community about suicide death;

Consider funeral arrangements for the family and school community;

Respond to memorial requests in a respectful and non-harmful manner; responses should be handed in a thoughtful way, and their impact on other students should be considered. Memorials or dedications to a student who has died by suicide should not glamorize or romanticize either the student or the death.

Identify and monitor social media platforms students are using to respond to the suicide. Encourage parents to monitor internet postings regarding the death, including the deceased personal profile pages.

Section K: Crime Assessment
Part 1: Crime Assessment

In compliance with SB 187 and SB 334, we will compile statistics pertaining to school crime committed at our locations and at school-related functions. The school will complete a *California Safe Schools Assessment – School Crime Reporting Form* for each incident that occurs. Copies of these forms shall be inserted in the Appendix of this plan. The school will also insert an annual breakdown of incidents by month. Information obtained will assist the school and in developing programs to reduce the incidence of crime on campus.
