## LATE APPLICATIONS FOR THE 2018-2019 SCHOOL YEAR

After the traditional admissions season, we move to the late application process.

Families may still set up shadow days until the week before final exams for SPSV students. Applicants for ninth and tenth grades must sit for an entrance exam, which will be scheduled on a weekday morning. Students will be given a recommendation form to take to their current school and must also provide SPSV with a transcript and attendance and discipline printout. Finally, the applicant and their parent must schedule an interview with a member of our administration. The admissions team will review completed files and notify applicants by email with a hardcopy follow-up.

Families normally make tuition payments from June through April, so late admission can increase the monthly payment amounts. Financial Aid is available and is a separate process handled by the SPSV Business Department. After the traditional timeline, families interested in Financial Aid must obtain a code from the Admissions Department or Business Department to access the TADS application.
