Art Classes – Grades K-8

Art lessons at OLA are based on the Elements Art- line, shape, space, form, color, value and texture. Children are exposed to a variety of art media including graphite, charcoal ink, watercolor, tempera paint, and three-dimensional form.

Advanced Art Elective- grades 6-8

Advanced Art class takes students more deeply into the art making process. Students are able to work more independently and to choose subject matter in projects. Skills learned in art class are honed and developed in areas of interest more specific to each student. In-depth and advanced projects are assigned as well as weekly homework drawings. During the second half of the year, students are introduced to various digital art applications to create art in this medium.
