## A Message From Mrs. Flores

Dear Parents/Guardians,

It is great to see our students back at school all ready to learn for the new school year. It has been a good start so far, and we are all looking to have a wonderful school year ahead. It was also great to see so many at our Back-to-School Night and Welcome Back BBQ, and being able to share all the exciting things in place this year to support our students' growth and educational needs. In the month ahead, we will continue to implement our new ELA and Math curriculums, while setting individual goals with each of our students for each benchmark during this school year. We will also continue practicing safety drills so our students and staff are familiar with our emergency and safety protocols. We hope, in the near future, to implement our projected Promethean Learning Boards, to meet our School Counselor and Reading Tutors, with an update sent home to all our families as these additions happen. With so many exciting new programs, services, and materials in place or coming our way, this also brings to St. Paul School fruitful outcomes such as higher enrollment and additional staffing. My hope and prayers are that we keep the positive momentum going!

Blessings,  
Erma Flores

### *Did you Know?*

St. Paul School opened on  
September 3, 1952. The  
Notre Dame of Cleveland  
Sisters started with just the  
first four grades and 184  
students. Each year  
thereafter, the school added  
a grade of students,  
graduating its first 8th  
grade class in 1957.
