DUAL CREDIT COURSES:

Dual credit is a program in which high school students are able to simultaneously earn both high school AND college-level credit for the *same* course work. Dual credit courses allow the student to choose alternative elective courses. This also allows the student to gain some experience with college instruction and helps the student understand the importance of self-discipline. The professor provides information on what is to be done and when it is due. It then becomes the responsibility of the student to make sure the work is completed and turned in on time.

North Hills Christian School offers dual credit courses for 11th and 12th grade students. The cost is *per semester* and dependent on the number of credits of the course(s) taken and the cost set by the college. The range (based on the rates for spring 2023) is \$900 - \$2,400.

The following guidelines are established for enrolling in these courses:

- Fees for the class must be paid in advance of registration in the class. In the event a student withdraws from the class, whether due to student choice or instructor drop (student not attending or completing required work), there is NO refund for course fees.
- All book purchases are the responsibility of the student.
- The student must provide the NHCS Academic Counselor with student login information.
- The student is responsible to attend weekly check-in appointments with the NHCS Academic Counselor to provide support for successful course completion.
- Once the course is completed the student is responsible to request that an official transcript be sent to North Hills Christian School.

Note: *NHCS is not responsible for monitoring the completion of student work and cannot intervene on the student's behalf with any college professor.*
