

I've Got Questions: What happens after we die?

(Revelation 20:11-15)

Opening Discussion: When was a time when you really contemplated what will happen when you die? Why do you think we so often avoid talking or thinking about death?

The Big Idea: We will all _____ eternity in one of two _____.

1. **Main Point #1** - _____ Jesus, _____ Eternal Life
(Revelation 20: ____ - ____)

For further discussion: Why do you think the Bible speaks to much about condemnation, hell and the future of those who don't know Jesus? Do you think fear is a good motivator? What is the problem if fear stays the only motivator? (See Matthew 25:14-30: What does this story reveal to us about the nature of God coming to "settle accounts?" How does it feel that God will one day call you to settle accounts? If there was a surefire way to avoid condemnation, what would you be willing to do to obtain it?)

Notes:

2. **Main Point #2** - _____ Jesus, _____ Eternal Life
(Revelation 20: ____)

For further discussion: The Bible speaks really broad about what it takes to earn eternal death, but is very specific that there is only one way to attain eternal life. Why is such exclusivity so difficult for people to accept? How do you respond to this? (See John 15:13: What does this passage teach us about why Jesus chose to become the way by which we gain eternal life? Why is the love of God so extravagant? Why do people spend so much of their lives trying to avoid it?)

Notes:

Response: If you were to die _____, are you _____ what will happen to you?
