The kids are learning about the different seasons that happen during the year, such as: Fall, Winter, Spring, and Summer. The people that live in California are blessed to be able to experience the four different seasons. The kids appreciate it and they recognize that people who live in other parts of the world do not have the same experience that they have.

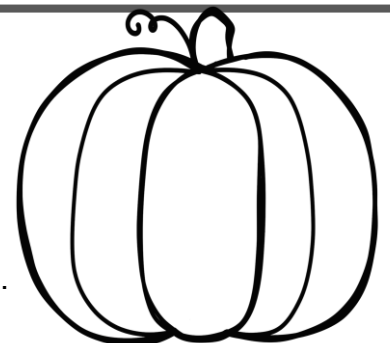

They are also learning about their bodies and that they should take care of it and do their best to keep them healthy.

Physical

The kids love craft time! They will be doing a letter H and S craft. "H" is for house, where they will be drawing squares within the letter H and coloring it to make it look like a house. The "S" craft is for snake, where they will be attempting to make the pattern of a snake.
