Social/Emotional

The language development the kids will be learning about are reptiles and forest animals. They will learn the differences between the different kinds of animals that God has created and put onto this earth.

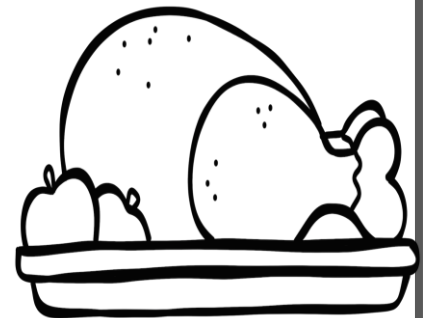

During this time, this is when they need to practice patience and self control while listening and paying attention. They learn how not to talk to their friends and focus during the story. Their teacher will also ask questions at the end to see how much they were listening.

Physical

The kids are working hard learning their numbers and letters. One thing they gain while learning their letters is learning them in sign language, too. They really enjoy a specific video that teaches it to them.

Social/Emotional

This week our kids will be learning about firemen/firefighters. Firefighters are some of the most important workers in our community. They work hard to put out any fire that shouldn't be burning.

We must remember to pray for our firefighters. We can pray that God keeps them safe as they work. We can thank God that firefighters are there if we ever need their help.

Physical

Our teachers will be teaching the children how to properly act when there is a fire. They will participate in a fire drill and practice each of the fire safety rules. This will help the kids to know what to do and understand what they're doing and why, which is to keep safe.
