The kids will be learning about kitchen safety. They will learn that this is where all the food comes from and where it belongs. With all the food in the kitchen, they will recognize that it's a place where they need to be safe. The kids will gain a better understanding that there's a stove, oven, and sink. While family members are using them, they will learn not to run around and be very careful while in the kitchen.

## Physical

Since learning about kitchen safety in the classroom, it helps them to practice what they learned at home. This will help them to stay away from the stove and oven. They will make sure not to run in the kitchen and be aware of their surroundings.

We will be learning more about kindness. We should be kind everyday, everywhere. We can remember to say "please" and ask for things in a proper way. We can say "thank you" when our friends share their toys with us.

God wants us to be kind, even if someone else is not kind to us. We ask God to help us be kind. We can show kindness everyday - while at school, at home, at church, and at play.

## Physical

Our teachers will be reminding the kids about kindness throughout the school day. They will be doing this especially when the children line up, wait their turn, play at recess, and listen when they are called on.
