### Review Bible verse

- 1 John 3:23 Love one another

## Social/Emotional

The kids will be reviewing all about their shapes. They will be focusing more on the square, circle, and rectangle. While learning about these shapes they will also play a game after learning about them. This allows the kids to recognize the different shapes they observe. When inside their classroom, the shape of their desk is a rectangle. When outside playing together, they know the ball they are holding looks like a circle.

## Physical

In the classroom, the kids will be playing with playdough this week. They will be given their own color, along with some tools that will help them cut out different shapes. This allows the kids to be imaginative and have full access to what they want to create.

## Things to Know

## Social/Emotional

This week we will emphasize the true meaning of Christmas. Christmas is a special time. It is so exciting to see the beautiful trees and presents and to hear all the different Christmas songs. We have Christmas because it is the day we celebrate the birthday of our Savior, Jesus Christ.

When learning about this, the kids are able to appreciate the importance of Christmas. They may recognize Christmas for just the beautiful lights and presents underneath the tree but by hearing this story they learn the true meaning of Christmas.

## Physical

The kids will sing and dance to all kinds of different Christmas songs. In the classroom, they will also be playing different Christmas games. During this time, they are able to exercise and move around their desks. This is a very exciting time for them.
