Social/Emotional

The kids will be playing color and shapes Bingo in the classroom. During this activity, the teacher will hand them a paper with different colored shapes. The teacher will call out a specific color and shape and they must match it if they have it on their paper. During this time, they must listen carefully to the teacher and follow the directions. This helps the kids to concentrate and pay attention during the game.

Physical

The kids will be working on puzzles in the classroom. This helps the kids to improve their concentration, hand-eye coordination, memory, and so much more. Puzzles are also really fun and the kids love to put the pieces together!

Things to Know

Join us Wednesday, May 26, at 7 PM for our **End of the Year Program**. Our kids will showcase what they have learned this year. It will premiere on the North Hills YouTube channel. You don't want to miss it!

Bible verses

- review: John 14:6 and 1 Timothy 1:15

Social/Emotional

This week the children will learn that they are fearfully and wonderfully made by God. Everyone is special and there is no one like them in the whole world. God made them special and unique in their own way. Since God made them, He knows all about them. The kids will understand that God knows them and God will take good care of them and be there for them all the time.

The kids will learn that they can always call on God whenever they need to talk and just pray. God is with us and He will always listen to us when we need Him.

Physical

The children will be following along on a directional drawing lesson. The children will draw a large circle on a piece of paper. They will use colors that correspond to their own features as they follow the directions step by step. They will add their eyes, ears, nose, smile, and hair. At the end of the activity, the children will sing "Jesus Loves the Little Children" while they are showing their self portrait to the whole class.
