## Social/Emotional

During Language Development, the kids will be learning about their different senses such as: tasting, smelling, hearing, and touching. During this time they will be told about what the different senses are and connect them to their bodies. For example, the teacher will point to their ear and ask the students what we use our ears for and the students will answer, "Hearing!"

## Physical

The kids are given a homework packet each week to help strengthen what they learned in the classroom. One of the worksheets is tracing and coloring a pumpkin. This activity helps the child with their fine motor skills by tracing the dotted line and coloring inside the lines.

## Social/Emotional

This week the children will learn that God made animals move in many different ways. They use their bodies to get where they want to go. Just like any other children, God gave them legs so they can walk, run, skip, and jump.

They will also learn about a special place in the yard where they can grow fruits, vegetables, and flowers. God blesses our garden and gives us some special helpers for our garden.

## Physical

- The children will plant seeds in cups. For the next several weeks, the children will water the plants and watch them grow.
- The children will also pretend to be different kinds of animals and imitate how they move from one place to another.
