The kids will be learning about kitchen safety. They will learn that this is where all the food comes from and where it belongs. With all the food in the kitchen, they will recognize that it's a place where they need to be safe. The kids will gain a better understanding that there's a stove, oven, and sink. When family members are using them, they will learn not to run around and be very careful while in the kitchen.

Physical

Since learning about kitchen safety in the classroom, it helps them to practice what they learned at home. This will help them to stay away from the stove and oven. They will make sure not to run in the kitchen and be aware of their surroundings.

This week we will emphasize the true meaning of Christmas. Christmas is a special time. It is so exciting to see the beautiful trees and presents and to hear all the different Christmas songs. We have Christmas because it is the day we celebrate the birthday of our Savior, Jesus Christ.

When learning about this, the kids are able to appreciate the importance of Christmas. They may recognize Christmas for just the beautiful lights and presents underneath the tree but by hearing the story they learn the true meaning of Christmas.

Physical

The kids will sing and dance to all kinds of different Christmas songs. In the classroom, they will also be playing different Christmas games. During this time, they are able to exercise and move around their desks. This is a very exciting time for them.
