

## COVID-19 Prevention Program (CPP) for Winship Community School

This CPP is designed to control exposures to the SARS-CoV-2 virus that may occur in our workplace.

**Date: January 22, 2021**

### Authority and Responsibility

**Julie Haycock** has overall authority and responsibility for implementing the provisions of this CPP in our workplace. In addition, all certificated and classified employees are responsible for implementing and maintaining the CPP in their assigned work areas.

All employees are responsible for using safe work practices, following all directives, policies and procedures, and assisting in maintaining a safe work environment.

### Identification and Evaluation of COVID-19 Hazards

We will implement the following in our workplace:

- Conduct workplace-specific evaluations using the **Appendix A: Identification of COVID-19 Hazards** form.
- Evaluate employees' potential workplace exposures to all persons at, or who may enter, our workplace.
- Review applicable orders and general and industry-specific guidance from the State of California, Cal/OSHA, and the local health department related to COVID-19 hazards and prevention.
- Evaluate existing COVID-19 prevention controls in our workplace and the need for different or additional controls.
- Conduct periodic inspections using the **Appendix B: COVID-19 Inspections form** as needed to identify unhealthy conditions, work practices, and work procedures related to COVID-19 and to ensure compliance with our COVID-19 policies and procedures.

### Employee participation

Employees and their authorized employees' representatives are encouraged to participate in the identification and evaluation of COVID-19 hazards by attending mandatory training offered by county or state agencies or representatives. All employees must complete this training to its completion and provide evidence that such training has been accomplished.

### Family Education

Families will view the COVID-19 Reopening Plan on the school's website and receive a letter from administration with COVID-19 related safety plans for both students and staff.

### Employee Screening

We screen our employees by directly screening employees when they come to work, and having them self-screen according to CDPH guidelines prior to leaving for work. We ensure that face coverings are used during screening by both screeners and employees and we measure temperatures with a non-contact thermometer.

### Student Screening

Students will have their temperature checked at the front of the school, and/or at the staff parking lot entrance. There will be spaces marked for students to wait to be checked in order to maintain social distancing. If they have a fever of 100.4 F or higher, they will not be allowed

to attend school that day. If their parent is not on campus, the student will go to the isolation area and parent/guardian will be contacted for immediate pick up.

## **Correction of COVID-19 Hazards**

Unsafe or unhealthy work conditions, practices or procedures will be documented on the **Appendix B: COVID-19 Inspections** form, and corrected in a timely manner based on the severity of the hazards, as follows:

Commonly used areas such as restrooms, staff rooms, dining areas, and recreation areas will be cleaned and disinfected immediately after use. Cleaning and disinfecting materials will be accessible at all areas used by staff. The onsite custodian (if available) will perform such duties. If one is not available, it is the responsibility of the staff member to perform the duty of disinfecting the area(s) used.

## **Control of COVID-19 Hazards**

### **Physical Distancing**

Where possible, we ensure at least six feet of physical distancing at all times in our workplace by:

- Reducing the number of persons in an area at one time, including visitors.
- Visual cues such as signs and floor markings to indicate where employees and others should be located or their direction and path of travel.
- Staggered break times.
- Reference section [3205\(c\)\(6\)](#) for details

Individuals will be kept as far apart as possible when there are situations where six feet of physical distancing cannot be achieved.

### **Entrance, Egress and Movement Within the School**

- Students are not allowed at the resource center until 8:10.
- Students will enter the resource center and will be separated at least 6 feet apart and wearing masks.
- Students will have their temperature checked at the front of the school, and/or at the staff parking lot entrance. There will be spaces marked for students to wait to be checked in order to maintain social distancing. If they have a fever of 100.4 F or higher, they will not be allowed to attend school that day. If their parent is not at the resource center, the student will go to the isolation area and parent/guardian will be contacted for immediate pick up.
- Students will go to their classrooms for the time period between 8:10-8:30.
- Students will have recess outdoors (weather permitting) with their cohort peers. Students will be supervised and reminded to maintain social distancing.
- Playground equipment (balls, ropes, etc.) will be sanitized after each recess.
- Playground structures will be sanitized after each recess.
- Students will use hand sanitizer or wash their hands immediately before and after recess.
- Drinking water stations will not be accessible (water bottles can be filled).
- Lunch will be staggered between 11:30am to 12:30pm to allow students to social distance as they eat lunch.
- Resource center access will be limited to staff, students, and parents/guardians on official business ONLY. (No volunteers and visitors on campus.)

### **Face Coverings**

We provide clean, undamaged face coverings and ensure they are properly worn by employees over the nose and mouth when indoors, and when outdoors and less than six feet away from another person, including non-employees, and where required by orders from the California Department of Public Health (CDPH) or local health department. If a student or staff member is in need of a face covering, WCS will provide one. In case of loss, a replacement face cover will be available.

### **STAFF:**

All staff must use face coverings in accordance with CDPH guidelines unless Cal/OSHA standards require respiratory protection. If a staff member encounters a colleague not using a face covering, they are encouraged to remind their colleague of the practice of wearing face coverings. If a staff member does not feel comfortable confronting his/her colleague or the colleague refuses to adhere to the policy, he/she may report the incident to the supervisor on site.

The following are exceptions to the use of face coverings in our workplace:

- When an employee is alone in a room.
- While eating and drinking at the workplace, provided employees are at least six feet apart and outside air supply to the area, if indoors, has been maximized to the extent possible.
- Employees who cannot wear face coverings due to a medical or mental health condition or disability, or who are hearing-impaired or communicating with a hearing-impaired person. Alternatives will be considered on a case-by-case basis.
- Persons exempted from wearing a face covering due to a medical condition, as confirmed by school district health team and therapists, must wear a non-restrictive alternative, such as a face shield with a drape on the bottom edge, as long as their condition permits it.
- In limited situations where a face covering cannot be used for pedagogical or developmental reasons, (e.g., communicating or assisting young children or those with special needs) a face shield with a drape (per CDPH guidelines) can be used instead of a face covering while in the classroom as long as the wearer maintains physical distance from others. Staff must return to wearing a face covering outside of the classroom.
- Workers or other persons handling or serving food must use gloves in addition to face coverings.
- Employers should consider where disposable glove use may be helpful to supplement frequent handwashing or use of hand sanitizer; examples are for workers who are screening others for symptoms or handling commonly touched items.

Any employee not wearing a face covering, face shield with a drape or other effective alternative, or respiratory protection, for any reason, shall be at least six feet apart from all other persons unless the unmasked employee is tested at least twice weekly for COVID-19.

### **STUDENTS:**

Students and staff will be frequently reminded not to touch the face covering and to wash their hands frequently.

Students in all grade levels K-8 are required to wear face coverings at all times, while at school, unless exempted. A cloth face covering or face shield should be removed for meals, snacks, naptime, or when it needs to be replaced. When a cloth face covering is temporarily removed, it should be placed in a clean, safe area, clearly marked with the student's name and date, until it needs to be put on again.

In order to comply with this guidance, schools must exclude students from campus if they are not exempt from wearing a face covering under CDPH guidelines and refuse to wear one provided by the school.

Face covering policies apply on school buses and any vehicle affiliated with the LEA used to transport students, staff, or teachers to and/or from a school site.

### **Engineering controls**

We implement the following measures for situations where we cannot maintain at least six feet between individuals: Staff members will always have the benefit of at least six feet from another staff member. If not, staff members will always wear face coverings.

We maximize, to the extent feasible, the quantity of outside air for our buildings with mechanical or natural ventilation systems by:

- Heating and air systems will be checked properly by professionals if there appears to be a malfunction.
- Ventilation systems will have filters replaced periodically in order to maintain a clean flow of filtered air.

### **Cleaning and disinfecting**

We implement the following cleaning and disinfection measures for frequently touched surfaces:

- Adequate and appropriate state approved supplies are provided to the staff for the cleaning and disinfecting of commonly used areas. A custodian will clean and disinfect the commonly used areas immediately after use.
- Signs are located in all commonly used areas reminding staff to properly disinfect the area they used or to inform custodial staff.
- Frequently-touched surfaces at school will be cleaned daily
- Outdoor playgrounds/natural play areas only need routine maintenance. Children will wash or sanitize their hands before and after using these spaces .
  - Note: When hand hygiene is emphasized, cleaning of outdoor structures play is not required between cohorts.

Should we have a COVID-19 case in our workplace, we will implement the following procedures:

Should a COVID-19 case occur in our workplace, the custodial staff will immediately disinfect all areas in which the case was present. They will wear proper protection equipment (gloves, face covering, etc), and all staff, students, and personnel will be kept at a distance from said area(s).

### **Shared tools, equipment and personal protective equipment (PPE)**

PPE must not be shared, e.g., gloves, goggles and face shields.

Items that employees come in regular physical contact with, such as phones, headsets, desks, keyboards, writing materials, instruments and tools must also not be shared, to the extent feasible. Where there must be sharing, the items will be disinfected between uses by our custodial staff or staff member in charge by using the cleaning materials provided. This will be done immediately after use of the equipment.

### **Hand sanitizing**

In order to implement effective hand sanitizing procedures, we:

- Provide sanitary handwashing facilities.
- Provide hand sanitizer in all classrooms or commonly used areas.
- Encouraging and allowing time for employee handwashing.
- Providing employees with an effective hand sanitizer, and prohibit hand sanitizers that contain methanol (i.e. methyl alcohol).
- Encouraging employees to wash their hands for at least 20 seconds each time.

### **Personal protective equipment (PPE) used to control employees' exposure to COVID-19**

We evaluate the need for PPE (such as gloves, goggles, and face shields) as required by CCR Title 8, section 3380, and provide such PPE as needed.

When it comes to respiratory protection, we evaluate the need in accordance with CCR Title 8 section 5144 when the physical distancing requirements are not feasible or maintained. **[see section 3205(c)(E) of the Department of Industrial Relations for details on required respirator and eye protection use.]**

<b>Actions to take if there is a confirmed or suspected case of COVID-19 in a school</b>			
	<b>Student or Staff with:</b>	<b>Action</b>	<b>Communication with school community</b>
<b>1.</b>	COVID-19 symptoms (e.g., fever, cough, loss of taste or smell, difficulty breathing) Symptom screening: per <a href="#">CDC Symptom of COVID-19</a> .	<ul style="list-style-type: none"> <li>• Send home if at school.</li> <li>• Recommend testing (If positive, see #3, if negative, see #4).</li> <li>• School/classroom remain open.</li> </ul>	<ul style="list-style-type: none"> <li>• No action needed.</li> </ul>
<b>2.</b>	Close contact <b>(†)</b> with a confirmed COVID-19 case.	<ul style="list-style-type: none"> <li>• Send home if at school.</li> <li>• Exclude from school for 10 days from last exposure, per <a href="#">CDPH quarantine</a> recommendations.</li> <li>• Recommend testing 5-7 days from last exposure (but will not shorten 10-day exclusion if negative).</li> <li>• School/classroom remain open.</li> </ul>	<ul style="list-style-type: none"> <li>• Consider school community notification of a known exposure. No action needed if exposure did not happen in school setting.</li> </ul>
<b>3.</b>	Confirmed COVID- 19 case infection.	<ul style="list-style-type: none"> <li>• Notify the LHD.</li> <li>• Exclude from school for 10 days from symptom onset date or, if asymptomatic, for 10 days from specimen collection date.</li> <li>• Identify school contacts <b>(†)</b>, inform the LHD of identified contacts, and exclude contacts (possibly the entire stable group <b>(††)</b>) from school for 10 days after the last date the case was present at school while infectious.</li> <li>• Recommend testing asymptomatic contacts</li> </ul>	<ul style="list-style-type: none"> <li>• School community notification of a known case.</li> <li>• Notification of persons with potential exposure if case was present in school while infectious</li> </ul>

		<p>5-7 days from last exposure and immediate testing of symptomatic contacts (negative test results will not shorten 10-day exclusion).</p> <ul style="list-style-type: none"> <li>• Disinfection and cleaning of classroom and primary spaces where case spent significant time.</li> <li>• School remains open.</li> </ul>	
4.	<p>Symptomatic person tests negative or a healthcare provider has provided documentation that the symptoms are typical of their underlying chronic condition.</p>	<ul style="list-style-type: none"> <li>• May return to school after 24 hours have passed without fever and symptoms have started improving.</li> <li>• School/classroom remain open.</li> </ul>	<ul style="list-style-type: none"> <li>• Consider school community notification if prior awareness of testing.</li> </ul>

(†) A contact is defined as a person who is within 6 feet from a case for more than 15 minutes cumulative within a 24-hour period, regardless of face coverings. In some school situations, it may be difficult to determine whether individuals have met this criterion and an entire stable group, classroom, or other group may need to be considered exposed, particularly if people have spent time together indoors.

### Investigating and Responding to COVID-19 Cases

This will be accomplished by using the **Appendix C: Investigating COVID-19 Cases** form.

Employees who had potential COVID-19 exposure in our workplace will be:

- Offered COVID-19 testing at no cost during their working hours.
- The information on benefits described in Training and Instruction, and Exclusion of COVID-19 Cases, below, will be provided to them.

### System for Communicating

Our goal is to ensure that we have effective two-way communication with our employees, in a form they can readily understand, and that it includes the following information:

- If an employee is experiencing COVID-19 symptoms, they will immediately report it to their site supervisor
- That employees can report symptoms and hazards without fear of reprisal.
- Our procedures or policies for accommodating employees with medical or other conditions that put them at increased risk of severe COVID-19 illness.
- Employees will be encouraged to take COVID-19 test to ensure that the virus is not brought back to the workplace.
- In the event we are required to provide testing because of a workplace exposure or outbreak, we will communicate the plan for providing testing and inform affected employees of the reason for the testing and the possible consequences of a positive test.

- Information about COVID-19 hazards employees (including other employers and individuals in contact with our workplace) may be exposed to, what is being done to control those hazards, and our COVID-19 policies and procedures.
- If there is a positive

## **Training and Instruction**

We will provide effective training and instruction that includes:

- Our COVID-19 policies and procedures to protect employees from COVID-19 hazards.
- Information regarding COVID-19-related benefits to which the employee may be entitled under applicable federal, state, or local laws.
- The fact that:
  - COVID-19 is an infectious disease that can be spread through the air.
  - COVID-19 may be transmitted when a person touches a contaminated object and then touches their eyes, nose, or mouth.
  - An infectious person may have no symptoms.
- Methods of physical distancing of at least six feet and the importance of combining physical distancing with the wearing of face coverings.
- The fact that particles containing the virus can travel more than six feet, especially indoors, so physical distancing must be combined with other controls, including face coverings and hand hygiene, to be effective.
- The importance of frequent hand washing with soap and water for at least 20 seconds and using hand sanitizer when employees do not have immediate access to a sink or hand washing facility, and that hand sanitizer does not work if the hands are soiled.
- Proper use of face coverings and the fact that face coverings are not respiratory protective equipment - face coverings are intended to primarily protect other individuals from the wearer of the face covering.
- COVID-19 symptoms, and the importance of obtaining a COVID-19 test and not coming to work if the employee has COVID-19 symptoms.

**Appendix D: COVID-19 Training Roster** will be used to document this training.

## **Exclusion of COVID-19 Cases**

Where we have a COVID-19 case in our workplace, we will limit transmission by:

- Ensuring that COVID-19 cases are excluded from the workplace until our return-to-work requirements are met.
- Excluding employees with COVID-19 exposure from the workplace for 14 days after the last known COVID-19 exposure to a COVID-19 case.
- Continuing and maintaining an employee's earnings, seniority, and all other employee rights and benefits whenever we've demonstrated that the COVID-19 exposure is work related.
- Providing employees at the time of exclusion with information on available benefits.

## **Reporting, Recordkeeping, and Access**

It is our policy to:

- Report information about COVID-19 cases at our workplace to the local health department whenever required by law, and provide any related information requested by the local health department.
- Report immediately to Cal/OSHA any COVID-19-related serious illnesses or death, as defined under CCR Title 8 section 330(h), of an employee occurring in our place of employment or

in connection with any employment.

- Maintain records of the steps taken to implement our written COVID-19 Prevention Program in accordance with CCR Title 8 section 3203(b).
- Make our written COVID-19 Prevention Program available at the workplace to employees, authorized employee representatives, and to representatives of Cal/OSHA immediately upon request.
- Use the **Appendix C: Investigating COVID-19 Cases** form to keep a record of and track all COVID-19 cases. The information will be made available to employees, authorized employee representatives, or as otherwise required by law, with personal identifying information removed.

### Return-to-Work Criteria

- COVID-19 cases with COVID-19 symptoms will not return to work until all the following have occurred:
    - At least 24 hours have passed since a fever of 100.4 or higher has resolved without the use of fever-reducing medications.
    - COVID-19 symptoms have improved.
    - At least 10 days have passed since COVID-19 symptoms first appeared.
  - COVID-19 cases who tested positive but never developed COVID-19 symptoms will not return to work until a minimum of 10 days have passed since the date of specimen collection of their first positive COVID-19 test.
  - A negative COVID-19 test will not be required for an employee to return to work.
  - If an order to isolate or quarantine an employee is issued by a local or state health official, the employee will not return to work until the period of isolation or quarantine is completed or the order is lifted. If no period was specified, then the period will be 10 days from the time the order to isolate was effective, or 14 days from the time the order to quarantine was effective.
-

Julie Haycock (Jan 25, 2021 09:39 PST)

Date: Jan 25, 2021

## Appendix B: COVID-19 Inspections

Date:

Name of person conducting the inspection:

Work location evaluated: Winship Community School (4305 South Meridian Rd Meridian, CA 95957)

Exposure Controls	Status	Person Assigned to Correct	Date Corrected
<b>Engineering</b>			
Barriers/partitions			
Ventilation (amount of fresh air and filtration maximized)			
Additional room air filtration			
<b>Administrative</b>			
Physical distancing			
Surface cleaning and disinfection (frequently enough and adequate supplies)			
Hand washing facilities (adequate numbers and supplies)			
Disinfecting and hand sanitizing solutions being used according to manufacturer instructions			
<b>PPE</b> (not shared, available and being worn)			
Face coverings (cleaned sufficiently often)			
Gloves			
Face shields/goggles			
Respiratory protection			

## Appendix C: Investigating COVID-19 Cases

All personal identifying information of COVID-19 cases or symptoms will be kept confidential. All COVID-19 testing or related medical services provided by us will be provided in a manner that ensures the confidentiality of employees, with the exception of unredacted information on COVID-19 cases that will be provided immediately upon request to the local health department, CDPH, Cal/OSHA, the National Institute for Occupational Safety and Health (NIOSH), or as otherwise required by law.

All employees' medical records will also be kept confidential and not disclosed or reported without the employee's express written consent to any person within or outside the workplace, with the following exceptions: (1) Unredacted medical records provided to the local health department, CDPH, Cal/OSHA, NIOSH, or as otherwise required by law immediately upon request; and (2) Records that do not contain individually identifiable medical information or from which individually identifiable medical information has been removed.

**Date:**

**Name of person conducting the investigation:**

<b>Employee (or non-employee*) name:</b>		<b>Occupation (if non-employee, why they were in the workplace):</b>	
<b>Location where employee worked (or non-employee was present in the workplace):</b>		<b>Date investigation was initiated:</b>	
<b>Was COVID-19 test offered?</b>		<b>Name(s) of staff involved in the investigation:</b>	
<b>Date and time the COVID-19 case was last present in the workplace:</b>		<b>Date of the positive or negative test and/or diagnosis:</b>	
<b>Date the case first had one or more COVID-19 symptoms:</b>		<b>Information received regarding COVID-19 test results and onset of symptoms (attach documentation):</b>	

**Results of the evaluation of the COVID-19 case and all locations at the workplace that may have been visited by the COVID-19 case during the high-risk exposure period, and who may have been exposed (attach additional information):**

<b>Notice given (within one business day, in a way that does not reveal any personal identifying information of the COVID-19 case) of the potential COVID-19 exposure to:</b>			
<b>All employees who may have had COVID-19 exposure and their authorized representatives.</b>	<b>Date:</b>		
	<b>Names of employees that were notified:</b>		
<b>Independent contractors and other employers present at the workplace during the high-risk exposure period.</b>	<b>Date:</b>		
	<b>Names of individuals that were notified:</b>		
<b>What were the workplace conditions that could have contributed to the risk of COVID-19 exposure?</b>		<b>What could be done to reduce exposure to COVID-19?</b>	
<b>Was local health department notified?</b>		<b>Date:</b>	

\*Should an employer be made aware of a non-employee infection source COVID-19 status.

**Appendix D: COVID-19 Training Roster**

**Date:**

**Person that conducted the training:**

Employee Name	Signature

## **Additional Consideration #1**

### **Multiple COVID-19 Infections and COVID-19 Outbreaks**

This section of CPP will stay in effect until there are no new COVID-19 cases detected in our workplace for a 14-day period.

#### **COVID-19 testing**

- We will provide COVID-19 testing to all employees in our exposed workplace except for employees who were not present during the period of an outbreak identified by a local health department or the relevant 14-day period. COVID-19 testing will be provided at no cost to employees during employees' working hours.
- COVID-19 testing consists of the following:
  - All employees in our exposed workplace will be immediately tested and then tested again one week later. Negative COVID-19 test results of employees with COVID-19 exposure will not impact the duration of any quarantine period required by, or orders issued by, the local health department.
  - After the first two COVID-19 tests, we will continue to provide COVID-19 testing of employees who remain at the workplace at least once per week, or more frequently if recommended by the local health department, until there are no new COVID-19 cases detected in our workplace for a 14-day period.
  - We will provide additional testing when deemed necessary by Cal/OSHA.

#### **Exclusion of COVID-19 cases**

We will ensure COVID-19 cases and employees who had COVID-19 exposure are excluded from the workplace in accordance with our CPP **Exclusion of COVID-19 Cases** and **Return to Work Criteria** requirements, and local health officer orders if applicable.

#### **Investigation of workplace COVID-19 illness**

We will immediately investigate and determine possible workplace-related factors that contributed to the COVID-19 outbreak in accordance with our CPP **Investigating and Responding to COVID-19 Cases**.

#### **COVID-19 investigation, review and hazard correction**

In addition to our CPP **Identification and Evaluation of COVID-19 Hazards** and **Correction of COVID-19 Hazards**, we will immediately perform a review of potentially relevant COVID-19 policies, procedures, and controls and implement changes as needed to prevent further spread of COVID-19.

The investigation and review will be documented and include:

- Investigation of new or unabated COVID-19 hazards including:
  - Our leave policies and practices and whether employees are discouraged from remaining home when sick.
  - Our COVID-19 testing policies.
  - Insufficient outdoor air.
  - Insufficient air filtration.
  - Lack of physical distancing.
- Updating the review:
  - Every thirty days that the outbreak continues.
  - In response to new information or to new or previously unrecognized COVID-19 hazards.
  - When otherwise necessary.

- Implementing changes to reduce the transmission of COVID-19 based on the investigation and review. We will consider:
  - Moving indoor tasks outdoors or having them performed remotely.
  - Increasing outdoor air supply when work is done indoors.
  - Improving air filtration.
  - Increasing physical distancing as much as possible.
  - Respiratory protection.
  - [describe other applicable controls].

#### **Notifications to the local health department**

- Immediately, but no longer than 48 hours after learning of three or more COVID-19 cases in our workplace, we will contact the local health department for guidance on preventing the further spread of COVID-19 within the workplace.
- We will provide to the local health department the total number of COVID-19 cases and for each COVID-19 case, the name, contact information, occupation, workplace location, business address, the hospitalization and/or fatality status, and North American Industry Classification System code of the workplace of the COVID-19 case, and any other information requested by the local health department. We will continue to give notice to the local health department of any subsequent COVID-19 cases at our workplace.

## **Additional Consideration #2**

### **Major COVID-19 Outbreaks**

This section of CPP will stay in effect until there are no new COVID-19 cases detected in our workplace for a 14-day period.

#### **COVID-19 testing**

We will provide twice a week COVID-19 testing, or more frequently if recommended by the local health department, to all employees present at our exposed workplace during the relevant 30-day period(s) and who remain at the workplace. COVID-19 testing will be provided at no cost to employees during employees' working hours.

#### **Exclusion of COVID-19 cases**

We will ensure COVID-19 cases and employees with COVID-19 exposure are excluded from the workplace in accordance with our CPP **Exclusion of COVID-19 Cases** and **Return to Work Criteria**, and any relevant local health department orders.

#### **Investigation of workplace COVID-19 illnesses**

We will comply with the requirements of our CPP **Investigating and Responding to COVID-19 Cases**.

#### **COVID-19 hazard correction**

In addition to the requirements of our CPP **Correction of COVID-19 Hazards**, we will take the following actions:

- In buildings or structures with mechanical ventilation, we will filter recirculated air with Minimum Efficiency Reporting Value (MERV) 13 or higher efficiency filters if compatible with the ventilation system. If MERV-13 or higher filters are not compatible with the ventilation system, we will use filters with the highest compatible filtering efficiency. We will also evaluate whether portable or mounted High Efficiency Particulate Air (HEPA) filtration units, or other air cleaning systems would reduce the risk of transmission and implement their use to the degree feasible.
- We will determine the need for a respiratory protection program or changes to an existing respiratory protection program under CCR Title 8 section 5144 to address COVID-19 hazards.
- We will evaluate whether to halt some or all operations at our workplace until COVID-19 hazards have been corrected
- Implement any other control measures deemed necessary by Cal/OSHA.

#### **Notifications to the local health department**

We will comply with the requirements of our **Multiple COVID-19 Infections** and **COVID-19 Outbreaks-Notifications to the Local Health Department**.

# COVID 19 Model Prevention Program, WCSv. 2

Final Audit Report
