- 2/23 Feast of St. Blaise

Curriculum Implementation

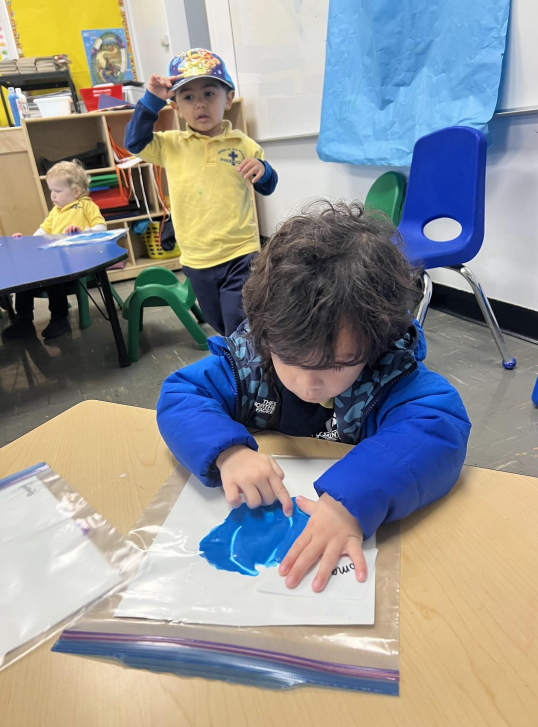

The Toddlers focused on movement this week. They learned more about how their body moves through dance parties, climbing on our in and outdoor structures, and playing chase. They watched how their fingers and paint move with painting in a bag. The children also watched how things in nature move. They observed how tree leaves sway, birds fly, and worms wiggle. They created winter tree and branch art to mimic what they saw. They sang songs like, "Head, Shoulders, Knees, and Toes" and we "There was a Tree, in the Middle of the Ground."

Dance Party!
