Curriculum Implementation

Dear Preschool Class,

We began learning all about letter C for "Community" this week. We introduced types of people who help us and places we go in the community. Then we took a walking field trip in our neighborhood. We saw our church first, the high school next door, the hospital, towering apartments, houses and a bank! We noticed shapes, colors, and said "Hello" to neighbors. This hands-on experience then supported the children as they used recycled materials to create their own "community model" using paper towel tubes for "tunnels for the cars," making ramps and roads with coffee sleeves and small boxes for "the church and hotels". Outside the children put on their pretend firefighter gear and used their fine motor skills to squirt water on the flames of the fence. We can't wait to visit more community helpers in depth each day next week!
