Curriculum Implementation

Dear Preschool Class, This week our focus was athletics. We provided a coloring activity with different sports balls to enhance their math skills. They learned that some sport balls have circle and oval shapes, some are round and some are flat. Mrs. Martin taught the children about hockey by adding ice blocks to our sensory bins. "Oh no! What's happening to the ice? It's melting! Its cold! It's wet and slippery!" This was a great opportunity to build on their language development. Then, they learned teamwork by participating in our Run for Fun event. I enjoyed seeing their smiling faces, but more importantly I saw gross motor development. Such as balance and coordination skills as they kept running and slowing down to prevent bumping into one another.
