

Model COVID-19 Prevention Program (CPP)

With some exceptions, all employers and places of employment are required to establish and implement an effective written COVID-19 Prevention Program (CPP) pursuant to an Emergency Temporary Standard in place for COVID-19 (California Code of Regulations (CCR), Title 8, section 3205(c)). Cal/OSHA has developed this model program to assist employers with creating their own unique CPP tailored to their workplace.

Employers are not required to use this program. Employers may create their own program or use another CCP template. Employers can also create a written CCP by incorporating elements of this program into their existing Injury and Illness Prevention Program (IIPP), if desired. Cal/OHA encourages employers to engage with employees in the design, implementation and evolution of their COVID-19 Prevention Program.

Using this model alone does not ensure compliance with the emergency temporary standard. To use this model program effectively, the person(s) responsible for implementing the CPP should carefully review:

- All of the elements that may be required in the following CCR, Title 8 sections:
 - 3205, COVID-19 Prevention
 - 3205.1, Multiple COVID-19 Infection and COVID-19 Outbreaks
 - 3205.2, Major COVID-19 Outbreaks
 - 3205.3, Prevention in Employer-Provided Housing
 - 3205.4, COVID-19 Prevention in Employer-Provided Transportation to and from Work
 - The four **Additional Considerations** provided at the end of this program to see if they are applicable to your workplace.
- The additional guidance materials available at www.dir.ca.gov/dosh/coronavirus/

November 2020

COVID-19 Prevention Program (CPP) for **St. Pius Church, Redwood City**

This CPP is designed to control exposures to the SARS-CoV-2 virus that may occur in our workplace.

Date: December 23, 2020

Authority and Responsibility

Father Thomas Martin, Pastor of St. Pius Church and his delegates has overall authority and responsibility for implementing the provisions of this CPP in our workplace. In addition, all managers and supervisors are responsible for implementing and maintaining the CPP in their assigned work areas and for ensuring employees receive answers to questions about the program in a language they understand.

All employees are responsible for using safe work practices, following all directives, policies and procedures, and assisting in maintaining a safe work environment.

Identification and Evaluation of COVID-19 Hazards

We will implement the following in our workplace:

- Conduct workplace-specific evaluations using the **Appendix A: Identification of COVID-19 Hazards** form.
- Evaluate employees' potential workplace exposures to all persons at, or who may enter, our workplace.
- Review applicable orders and general and industry-specific guidance from the State of California, Cal/OSHA, and the local health department related to COVID-19 hazards and prevention.
- Evaluate existing COVID-19 prevention controls in our workplace and the need for different or additional controls.
- Conduct periodic inspections using the **Appendix B: COVID-19 Inspections form** as needed to identify unhealthy conditions, work practices, and work procedures related to COVID-19 and to ensure compliance with our COVID-19 policies and procedures.
- **Where possible, staff will work remote/distance learning. When staff, volunteers and students are required to be on campus/serve in ministerial duties, safety PPE is required and social distancing guidelines are implemented. Specifics are addressed in the St. Pius School plan, the St. Pius Preschool plan and the St. Pius Parish plan.**

Employee participation

Employees and their authorized employees' representatives are encouraged to participate in the identification and evaluation of COVID-19 hazards by:

- **Evaluating employees' own symptoms before reporting to work**
- **participating in trainings on safety instructions**
- **review safety guidelines that are made available to all staff.**
- **following the plans in place and notifying their manager if a hazard is identified.**

Employee screening

We screen our employees by: **School staff and students use the Fever free app, Preschool staff and students use the fever free app. Parish Center staff uses self-monitoring and temperature taking when entering the shared space.**

Correction of COVID-19 Hazards

Unsafe or unhealthy work conditions, practices or procedures will be documented on the **Appendix B:**

COVID-19 Inspections form, and corrected in a timely manner based on the severity of the hazards, as follows:

Based on observances by staff and trained volunteers, the severity of an identified hazard will be assessed and correction time frames assigned, accordingly.

The individuals responsible for correcting hazards are Father Tom Martin, Father Edgardo Rodriguez, Marc Nava, Jennifer Hunter, Judy Giacometti, Gary Castelli.

Control of COVID-19 Hazards

Physical Distancing

Where possible, we ensure at least six feet of physical distancing at all times in our workplace and in our facilities visited by guests by:

- Eliminating the need for workers to be in the shared workplace – e.g., telework scheduling, scheduling meetings via zoom or google classroom.
- Reducing the number of persons in an area at one time, including visitors.
- Visual cues such as signs and floor markings to indicate where employees and visitors should be located or their direction and path of travel.
- Verbal reminders are given before and after meetings.
- Staggered arrival, departure, work, and break times.
- Adjusted work processes or procedures, such as reducing production speed, to allow greater distance between employees.
- Refer to section 3205(c) (6) OSHA Covid 19 Prevention guidelines for details that relate to physical distancing.

Individuals will be kept as far apart as possible when there are situations where six feet of physical distancing cannot be achieved.

Face Coverings

We provide clean, undamaged face coverings and ensure they are properly worn by employees and non-employee visitors over the nose and mouth when indoors, and when outdoors and less than six feet away from another person and where required by orders from the California Department of Public Health (CDPH) or San Mateo County health department. Disposable facemasks are available in the school office, the parish office, in the sacristy and the preschool check in site. These disposable masks are made available for employees and visitors. Washable face masks and shields have been made available to all staff. Staff is responsible for laundering their own mask.

If staff encounters a non- employee not wearing a mask, from a distance beyond six feet they should verbally remind the non- employee of the mask requirement. If the non-employee does not have a mask, an undamaged mask can be provided to them at the appropriate sites listed above.

The following are exceptions to the use of face coverings in our workplace:

- When an employee is alone in a private office.
- While eating and drinking at the workplace, provided employees are at least six feet apart and outside air supply to the area, if indoors, has been maximized to the extent possible.
- Employees wearing respiratory protection in accordance with CCR Title 8 section 5144 or other safety orders.
- Employees who cannot wear face coverings due to a medical or mental health condition or disability, or who are hearing-impaired or communicating with a hearing-impaired person. Alternatives will be considered on a case-by-case basis.
- Specific tasks that cannot feasibly be performed with a face covering, where employees will be kept

at least six feet apart.

Any employee not wearing a face covering, face shield with a drape or other effective alternative, or respiratory protection, for any reason, shall be at least six feet apart from all other persons unless the unmasked employee is tested at least twice weekly for COVID-19.

Engineering controls

We implement the following measures for situations where we cannot maintain at least six feet between individuals:

- In areas where six feet distance cannot be maintained, we have installed partitions.
- Individuals in these areas must adhere to the mask requirements.

We maximize, to the extent feasible, the quantity of outside air for our buildings with mechanical or natural ventilation systems by:

- Where possible, doors to the outside and windows are kept open e.g. the classroom, parish office, church doors.
- Increasing our filtration system in the buildings that can accommodate the Merv 13 filtration
- Maintaining a twice a year maintenance agreement on the HVAC of all buildings
- Adding recommended maintenance like the chemical cleaning to the HVAC units of the school and gymnasium
- In circumstances where the amount of outside air needs to be minimized e.g. heat or wildfire smoke, an evaluation needs to be completed to minimize work hours and or revert to remote work.

Cleaning and disinfecting

We implement the following cleaning and disinfection measures for frequently touched surfaces:

- All buildings and restrooms have regularly scheduled cleaning routines by St. Pius staff or outside vendors. The church, parish center, school, Homer Crouse and Fitzsimons are maintained by St. Pius Church staff that has been trained in cleaning proper cleaning protocols, equipment and cleaning agents.
- The St. Pius Preschool and the St. Pius Rectory are cleaned on a regularly scheduled basis by an outside vendor.

Should we have a COVID-19 case in our workplace, we will implement the following procedures: using proper PPE equipment, an outside vendor that specializes in cleaning and disinfection is designated to disinfect the spaces involved in a COVID-19 exposure.

Shared tools, equipment and personal protective equipment (PPE)

PPE must not be shared, e.g., gloves, goggles and face shields.

Items that employees come in regular physical contact with, such as phones, headsets, desks, keyboards, writing materials, instruments and tools must also not be shared, to the extent feasible. Where there must be sharing, the items will be disinfected between uses. Office guidelines, Church guidelines require that each staff disinfect shared equipment after use. In addition, each day, an assigned cleaning protocol takes places in the shared space.

Sharing of vehicles will be minimized to the extent feasible, and high-touch points (for example, steering wheel, door handles, seatbelt buckles, armrests, shifter, etc.) will be disinfected between users.

Hand sanitizing

In order to implement effective hand sanitizing procedures, we:

- Have conducted a review of all hand wash facilities in all buildings to ensure the adequate proximity to workspaces.
- Determined the need for additional facilities. eg. Two additional handwash stations have been provided on the school grounds and one additional handwash station has been provided on the preschool play yard.
- Require employees to sanitize their hands upon arrival and before starting work.
- Encouraging and allowing time for employee handwashing.
- Providing employees with effective hand sanitizers, and prohibit hand sanitizers that contain methanol (i.e. methyl alcohol).
- Encouraging employees to wash their hands for at least 20 seconds each time.

Personal protective equipment (PPE) used to control employees' exposure to COVID-19

We evaluate the need for PPE (such as gloves, goggles, and face shields) as required by CCR Title 8, section 3380, and provide such PPE as needed.

When it comes to respiratory protection, we evaluate the need in accordance with CCR Title 8 section 5144 when the physical distancing requirements are not feasible or maintained. Refer to section 3205(c)(E) of the COVID 19 Protection plan for details on required respirators and eye protection use.

We provide and ensure use of eye protection and respiratory protection in accordance with section 5144 when employees are exposed to procedures that may aerosolize potentially infectious material such as saliva or respiratory tract fluids.

Investigating and Responding to COVID-19 Cases

This will be accomplished by using the **Appendix C: Investigating COVID-19 Cases** form.

Employees who had potential COVID-19 exposure in our workplace will be:

- Offered COVID-19 testing at no cost during their working hours.
- The information on benefits described in Training and Instruction, and Exclusion of COVID-19 Cases, below, will be provided to the employee in case of potential exposure in our workplace.

System for Communicating

Our goal is to ensure that we have effective two-way communication with our employees, in a form they can readily understand, and that it includes the following information:

- Employees should report COVID-19 symptoms and possible hazards to their supervisor (Father Tom Martin, Marc Nava, Jennifer Hunter or Judy Giacometti).
- Employees can report symptoms and hazards without fear of reprisal.
- Employees that require accommodations due to increased risk of severe COVID 19 illness should refer to their supervisor for assistance.
- Employees with medical or other conditions that put them at increased risk of severe COVID-19 illness should refer to their supervisor for assistance.
- Voluntary COVID testing is available to all parish staff at these sites:
 - <https://app.acuityscheduling.com/schedule.php?owner=19994739&location=1100%20Woods%20Road%2C%20Redwood%20City%2C%20CA%2094061>
 - <https://www.projectbaseline.com/study/covid-19/>
- Required COVID testing for the school employees is available at no charge at the following site:
<https://app.acuityscheduling.com/schedule.php?owner=19994739&location=1100%20Woodside%20Road%2C%20Redwood%20City%2C%20CA%2094061>

[20Road%2C%20Redwood%20City%2C%20CA%2094061](#) Refer to communication that has been shared with school employees on the frequency requirement of the COVID 19 testing and calendar of testing sites available.

- In the event we are required to provide testing because of a workplace exposure or outbreak, we will communicate the plan for providing testing and inform affected employees of the reason for the testing and the possible consequences of a positive test.
- Information changes that might arise pertaining to COVID-19 hazards employees (including other employers and individuals in contact with our workplace) may be exposed to will be communicated to employees
- Communication to employees may take place via phone, text, email or flocknote

Training and Instruction

We will provide effective training and instruction that includes:

- Our COVID-19 policies and procedures to protect employees from COVID-19 hazards.
- Information regarding COVID-19-related benefits to which the employee may be entitled under applicable federal, state, or local laws.
- The fact that:
 - COVID-19 is an infectious disease that can be spread through the air.
 - COVID-19 may be transmitted when a person touches a contaminated object and then touches their eyes, nose, or mouth.
 - An infectious person may have no symptoms.
- Methods of physical distancing of at least six feet and the importance of combining physical distancing with the wearing of face coverings.
- The fact that particles containing the virus can travel more than six feet, especially indoors, so physical distancing must be combined with other controls, including face coverings and hand hygiene, to be effective.
- The importance of frequent hand washing with soap and water for at least 20 seconds and using hand sanitizer when employees do not have immediate access to a sink or hand washing facility, and that hand sanitizer does not work if the hands are soiled.
- Proper use of face coverings and the fact that face coverings are not respiratory protective equipment - face coverings are intended to primarily protect other individuals from the wearer of the face covering.
- COVID-19 symptoms, and the importance of obtaining a COVID-19 test and not coming to work if the employee has COVID-19 symptoms.

Appendix D: COVID-19 Training Roster will be used to document this training.

Exclusion of COVID-19 Cases

Where we have a COVID-19 case in our workplace, we will limit transmission by:

- Ensuring that COVID-19 cases are excluded from the workplace until our return-to-work requirements are met.
- Excluding employees with COVID-19 exposure from the workplace for 14 days after the last known COVID-19 exposure to a COVID-19 case.
- Continuing and maintaining an employee's earnings, seniority, and all other employee rights and benefits whenever we've demonstrated that the COVID-19 exposure is work related. This will be accomplished by employer-provided employee sick leave benefits, payments from public sources or other means of maintaining earnings, rights and benefits, where permitted by law and when not

covered by workers' compensation.

- Providing employees at the time of exclusion with information on available benefits.

Reporting, Recordkeeping, and Access

It is our policy to:

- Report information about COVID-19 cases at our workplace to the local health department whenever required by law, and provide any related information requested by the local health department.
- Report immediately to Cal/OSHA any COVID-19-related serious illnesses or death, as defined under CCR Title 8 section 330(h), of an employee occurring in our place of employment or in connection with any employment.
- Maintain records of the steps taken to implement our written COVID-19 Prevention Program in accordance with CCR Title 8 section 3203(b).
- Make our written COVID-19 Prevention Program available at the workplace to employees, authorized employee representatives, and to representatives of Cal/OSHA immediately upon request.
- Use the **Appendix C: Investigating COVID-19 Cases** form to keep a record of and track all COVID-19 cases. The information will be made available to employees, authorized employee representatives, or as otherwise required by law, with personal identifying information removed.

Return-to-Work Criteria

- COVID-19 cases with COVID-19 symptoms will not return to work until all the following have occurred:
 - At least 24 hours have passed since a fever of 100.4 or higher has resolved without the use of fever-reducing medications.
 - COVID-19 symptoms have improved.
 - At least 10 days have passed since COVID-19 symptoms first appeared.
 - COVID-19 cases who tested positive but never developed COVID-19 symptoms will not return to work until a minimum of 10 days have passed since the date of specimen collection of their first positive COVID-19 test.
 - A negative COVID-19 test will not be required for an employee to return to work.
 - If an order to isolate or quarantine an employee is issued by a local or state health official, the employee will not return to work until the period of isolation or quarantine is completed or the order is lifted. If no period was specified, then the period will be 10 days from the time the order to isolate was effective, or 14 days from the time the order to quarantine was effective.
-

Father Thomas Martin
Pastor, St. Pius Parish

Date

Appendix B: COVID-19 Inspections

[This form is only intended to get you started. Review the information available at www.dir.ca.gov/dosh/coronavirus/ for additional guidance on what to regularly inspect for, including issues that may be more pertinent to your particular type of workplace. You will need to modify form accordingly.]

Date: [enter date]

Name of person conducting the inspection: [enter names]

Work location evaluated: [enter information]

Exposure Controls	Status	Person Assigned to Correct	Date Corrected
Engineering			
Barriers/partitions			
Ventilation (amount of fresh air and filtration maximized)			
Additional room air filtration			
[add any additional controls your workplace is using]			
[add any additional controls your workplace is using]			
Administrative			
Physical distancing			
Surface cleaning and disinfection (frequently enough and adequate supplies)			
Hand washing facilities (adequate numbers and supplies)			
Disinfecting and hand sanitizing solutions being used according to manufacturer instructions			
[add any additional controls your workplace is using]			
[add any additional controls your workplace is using]			
PPE (not shared, available and being worn)			
Face coverings (cleaned sufficiently often)			
Gloves			
Face shields/goggles			
Respiratory protection			
[add any additional controls your workplace is using]			

Appendix C: Investigating COVID-19 Cases

All personal identifying information of COVID-19 cases or symptoms will be kept confidential. All COVID-19 testing or related medical services provided by us will be provided in a manner that ensures the confidentiality of employees, with the exception of unredacted information on COVID-19 cases that will be provided immediately upon request to the local health department, CDPH, Cal/OSHA, the National Institute for Occupational Safety and Health (NIOSH), or as otherwise required by law.

All employees' medical records will also be kept confidential and not disclosed or reported without the employee's express written consent to any person within or outside the workplace, with the following exceptions: (1) Unredacted medical records provided to the local health department, CDPH, Cal/OSHA, NIOSH, or as otherwise required by law immediately upon request; and (2) Records that do not contain individually identifiable medical information or from which individually identifiable medical information has been removed.

Date: [enter date]

Additional Consideration #1

Multiple COVID-19 Infections and COVID-19 Outbreaks

[This section will need to be added to your CPP if your workplace is identified by a local health department as the location of a COVID-19 outbreak, or there are three or more COVID-19 cases in your workplace within a 14-day period. Reference section 3205.1 for details.]

This section of CPP will stay in effect until there are no new COVID-19 cases detected in our workplace for a 14-day period.

COVID-19 testing

- We will provide COVID-19 testing to all employees in our exposed workplace except for employees who were not present during the period of an outbreak identified by a local health department or the relevant 14-day period. COVID-19 testing will be provided at no cost to employees during employees' working hours.
- COVID-19 testing consists of the following:
 - All employees in our exposed workplace will be immediately tested and then tested again one week later. Negative COVID-19 test results of employees with COVID-19 exposure will not impact the duration of any quarantine period required by, or orders issued by, the local health department.
 - After the first two COVID-19 tests, we will continue to provide COVID-19 testing of employees who remain at the workplace at least once per week, or more frequently if recommended by the local health department, until there are no new COVID-19 cases detected in our workplace for a 14-day period.
 - We will provide additional testing when deemed necessary by Cal/OSHA.

Exclusion of COVID-19 cases

We will ensure COVID-19 cases and employees who had COVID-19 exposure are excluded from the workplace in accordance with our CPP **Exclusion of COVID-19 Cases** and **Return to Work Criteria** requirements, and local health officer orders if applicable.

Investigation of workplace COVID-19 illness

We will immediately investigate and determine possible workplace-related factors that contributed to the COVID-19 outbreak in accordance with our CPP **Investigating and Responding to COVID-19 Cases**.

COVID-19 investigation, review and hazard correction

In addition to our CPP **Identification and Evaluation of COVID-19 Hazards** and **Correction of COVID-19 Hazards**, we will immediately perform a review of potentially relevant COVID-19 policies, procedures, and controls and implement changes as needed to prevent further spread of COVID-19.

The investigation and review will be documented and include:

- Investigation of new or unabated COVID-19 hazards including:
 - Our leave policies and practices and whether employees are discouraged from remaining home when sick.
 - Our COVID-19 testing policies.
 - Insufficient outdoor air.
 - Insufficient air filtration.
 - Lack of physical distancing.
- Updating the review:
 - Every thirty days that the outbreak continues.
 - In response to new information or to new or previously unrecognized COVID-19 hazards.
 - When otherwise necessary.
- Implementing changes to reduce the transmission of COVID-19 based on the investigation and

review. We will consider:

- Moving indoor tasks outdoors or having them performed remotely.
- Increasing outdoor air supply when work is done indoors.
- Improving air filtration.
- Increasing physical distancing as much as possible.
- Respiratory protection.
- [describe other applicable controls].

Notifications to the local health department

- Immediately, but no longer than 48 hours after learning of three or more COVID-19 cases in our workplace, we will contact the local health department for guidance on preventing the further spread of COVID-19 within the workplace.
- We will provide to the local health department the total number of COVID-19 cases and for each COVID-19 case, the name, contact information, occupation, workplace location, business address, the hospitalization and/or fatality status, and North American Industry Classification System code of the workplace of the COVID-19 case, and any other information requested by the local health department. We will continue to give notice to the local health department of any subsequent COVID-19 cases at our workplace.

Additional Consideration #2

Major COVID-19 Outbreaks

[This section will need to be added to your CPP should your workplace experience 20 or more COVID-19 cases within a 30-day period. Reference section 3205.2 for details.]

This section of CPP will stay in effect until there are no new COVID-19 cases detected in our workplace for a 14-day period.

COVID-19 testing

We will provide twice a week COVID-19 testing, or more frequently if recommended by the local health department, to all employees present at our exposed workplace during the relevant 30-day period(s) and who remain at the workplace. COVID-19 testing will be provided at no cost to employees during employees' working hours.

Exclusion of COVID-19 cases

We will ensure COVID-19 cases and employees with COVID-19 exposure are excluded from the workplace in accordance with our CPP **Exclusion of COVID-19 Cases** and **Return to Work Criteria**, and any relevant local health department orders.

Investigation of workplace COVID-19 illnesses

We will comply with the requirements of our CPP **Investigating and Responding to COVID-19 Cases**.

COVID-19 hazard correction

In addition to the requirements of our CPP **Correction of COVID-19 Hazards**, we will take the following actions:

- In buildings or structures with mechanical ventilation, we will filter recirculated air with Minimum Efficiency Reporting Value (MERV) 13 or higher efficiency filters if compatible with the ventilation system. If MERV-13 or higher filters are not compatible with the ventilation system, we will use filters with the highest compatible filtering efficiency. We will also evaluate whether portable or mounted High Efficiency Particulate Air (HEPA) filtration units, or other air cleaning systems would reduce the risk of transmission and implement their use to the degree feasible.
- We will determine the need for a respiratory protection program or changes to an existing respiratory protection program under CCR Title 8 section 5144 to address COVID-19 hazards.
- We will evaluate whether to halt some or all operations at our workplace until COVID-19 hazards have been corrected
- Implement any other control measures deemed necessary by Cal/OSHA.

Notifications to the local health department

We will comply with the requirements of our **Multiple COVID-19 Infections** and **COVID-19 Outbreaks-Notifications to the Local Health Department**.

Additional Consideration #3

COVID-19 Prevention in Employer-Provided Housing

[This section will need to be added to your CPP if you have workers in employer-provided housing. Reference section 3205.3 for details. Employer-provided housing is any place or area of land, any portion of any housing accommodation, or property upon which a housing accommodation is located, consisting of: living quarters, dwelling, boardinghouse, tent, bunkhouse, maintenance-of-way car, mobile home, manufactured home, recreational vehicle, travel trailer, or other housing accommodations. Employer-provided housing includes a “labor camp” as that term is used in title 8 of the California Code of Regulations or other regulations or codes. The employer-provided housing may be maintained in one or more buildings or one or more sites, including hotels and motels, and the premises upon which they are situated, or the area set aside and provided for parking of mobile homes or camping. Employer-provided housing is housing that is arranged for or provided by an employer, other person, or entity to workers, and in some cases to workers and persons in their households, in connection with the worker’s employment, whether or not rent or fees are paid or collected.

- This section does not apply to housing provided for the purpose of emergency response, including firefighting, rescue, and evacuation, and support activities directly aiding response such as utilities, communications, and medical operations, if:
 - The employer is a government entity; or
 - The housing is provided temporarily by a private employer and is necessary to conduct the emergency response operations.
- The requirements below for Physical distancing and controls, Face coverings, Cleaning and disinfecting, Screening, and Isolation of COVID-19 cases and persons with COVID-19 exposure do not apply to occupants, such as family members, who maintained a household together prior to residing in employer-provided housing, but only when no other persons outside the household are present.]

Assignment of housing units

We will ensure that shared housing unit assignments are prioritized in the following order:

- Residents who usually maintain a household together outside of work, such as family members, will be housed in the same housing unit without other persons.
- Residents who work in the same crew or work together at the same worksite will be housed in the same housing unit without other persons.
- Employees who do not usually maintain a common household, work crew, or worksite will be housed in the same housing unit only when no other housing alternatives are possible.

Physical distancing and controls

We will ensure:

- The premises are of sufficient size and layout to permit at least six feet of physical distancing between residents in housing units, common areas, and other areas of the premises.
- Beds are spaced at least six feet apart in all directions and positioned to maximize the distance between sleepers’ heads. For beds positioned next to each other, i.e., side by side, the beds will be arranged so that the head of one bed is next to the foot of the next bed. For beds positioned across from each other, i.e., end to end, the beds will be arranged so that the foot of one bed is closest to the foot of the next bed. Bunk beds will not be used.
- Maximization of the quantity and supply of outdoor air and increase filtration efficiency to the highest level compatible with the existing ventilation system in housing units.

Face coverings

We will provide face coverings to all residents and provide information to residents on when they should

be used in accordance with state or local health officer orders or guidance.

Cleaning and disinfection

We will ensure that:

- Housing units, kitchens, bathrooms, and common areas are effectively cleaned and disinfected at least once a day to prevent the spread of COVID-19. Cleaning and disinfecting shall be done in a manner that protects the privacy of residents.
- Unwashed dishes, drinking glasses, cups, eating utensils, and similar items are not shared.

Screening

We will encourage residents to report COVID-19 symptoms to **[enter name of individual, position, or office]**.

COVID-19 testing

We will establish, implement, and maintain effective policies and procedures for COVID-19 testing of occupants who had a COVID-19 exposure, who have COVID-19 symptoms, or as recommended by the local health department.

Isolation of COVID-19 cases and persons with COVID-19 exposure

We will:

- Effectively isolate COVID-19 exposed residents from all other occupants. Effective isolation will include providing COVID-19 exposed residents with a private bathroom, sleeping area, and cooking and eating facility.
- Effectively isolate COVID-19 cases from all occupants who are not COVID-19 cases. Effective isolation will include housing COVID-19 cases only with other COVID-19 cases, and providing COVID-19 case occupants with a sleeping area, bathroom, and cooking and eating facility that is not shared by non-COVID-19-case occupants.
- Keep confidential any personal identifying information regarding COVID-19 cases and persons with COVID-19 symptoms, in accordance with our CPP **Investigating and Responding to COVID-19 Cases**.
- End isolation in accordance with our CPP **Exclusion of COVID-19 Cases** and **Return to Work Criteria**, and any applicable local or state health officer orders.

Additional Consideration #4

COVID-19 Prevention in Employer-Provided Transportation to and from Work

[This section will need to be added to your CPP if there is employer-provided motor vehicle transportation to and from work, which is any transportation of an employee, during the course and scope of employment, provided, arranged for, or secured by an employer including ride-share vans or shuttle vehicles, car-pools, and private charter buses, regardless of the travel distance or duration involved. Reference section 3205.4 for details.]

This section does not apply:

- If the driver and all passengers are from the same household outside of work, such as family members.
- To employer-provided transportation when necessary for emergency response, including firefighting, rescue, and evacuation, and support activities directly aiding response such as utilities, communications and medical operations.]

Assignment of transportation

We will prioritize shared transportation assignments in the following order:

- Employees residing in the same housing unit will be transported in the same vehicle.
- Employees working in the same crew or worksite will be transported in the same vehicle.
- Employees who do not share the same household, work crew or worksite will be transported in the same vehicle only when no other transportation alternatives are possible.

Physical distancing and face coverings

We will ensure that the:

- Physical distancing and face covering requirements of our CPP **Physical Distancing** and **Face Coverings** are followed for employees waiting for transportation.
- Vehicle operator and any passengers are separated by at least three feet in all directions during the operation of the vehicle, regardless of the vehicle's normal capacity. Vehicle operator and any passengers are provided and wear a face covering in the vehicle as required by our CPP **Face Coverings**.

Screening

We will develop, implement, and maintain effective procedures for screening and excluding drivers and riders with COVID-19 symptoms prior to boarding shared transportation.

Cleaning and disinfecting

We will ensure that:

- All high-contact surfaces (door handles, seatbelt buckles, armrests, etc.) used by passengers are cleaned and disinfected before each trip.
- All high-contact surfaces used by drivers, such as the steering wheel, armrests, seatbelt buckles, door handles and shifter, are cleaned and disinfected between different drivers.
- We provide sanitizing materials, training on how to use them properly, and ensure they are kept in adequate supply.

Ventilation

We will ensure that vehicle windows are kept open, and the ventilation system set to maximize outdoor air and not set to recirculate air. Windows do not have to be kept open if one or more of the following conditions exist:

- The vehicle has functioning air conditioning in use and the outside temperature is greater than 90 degrees Fahrenheit.
- The vehicle has functioning heating in use and the outside temperature is less than 60 degrees Fahrenheit.
- Protection is needed from weather conditions, such as rain or snow.
- The vehicle has a cabin air filter in use and the U.S. EPA Air Quality Index for any pollutant is greater than 100.

Hand hygiene

We will provide hand sanitizer in each vehicle and ensure that all drivers and riders sanitize their hands before entering and exiting the vehicle. Hand sanitizers with methyl alcohol are prohibited.
