## Curriculum Implementation

This week we began a new winter & cold climates exploration that will last through the month of January, beginning with learning about the [arctic](#) and antarctic. We started the week making snow storm collages, giving the children a chance to practice fine motor skills while tearing, peeling, and gluing. Then we worked on [winter patterning](#) using a grid template and winter themed stickers to build on math skills. We got even more creative while building fine motor skills by making [painted snowflakes](#), using complementary colors and q-tips to create small details. We also read about polar bears and their babies and then pretended we were [Polar Babies](#) rolling around in the sun! Lastly, we celebrated the last of the Christmas season with the [Feast of the Epiphany](#).
