2020-21 LCAP Federal Addendum Certification

CDE Program Contact:

Local Agency Systems Support Office, LCFF@cde.ca.gov, 916-323-5233

Initial Application

To receive initial funding under the Every Student Succeeds Act (ESSA), a local educational agency (LEA) must have a plan approved by the State Educational Agency on file with the State. Within California, LEAs that apply for ESSA funds for the first time are required to complete the Local Control and Accountability Plan (LCAP), the LCAP Federal Addendum Template (Addendum), and the Consolidated Application (ConApp). The LCAP, in conjunction with the Addendum and the ConApp, serve to meet the requirements of the ESSA LEA Plan.

In order to initially apply for funds, the LEA must certify that the current LCAP has been approved by the local governing board or governing body of the LEA. As part of this certification, the LEA agrees to submit the LCAP Federal Addendum, that has been approved by the local governing board or governing body of the LEA, to the California Department of Education (CDE) and acknowledges that the LEA agrees to work with the CDE to ensure that the Addendum addresses all required provisions of the ESSA programs for which they are applying for federal education funds.

Returning Application

If the LEA certified a prior year LCAP Federal Addendum Certification data collection form in the Consolidated Application and Reporting System, then the LEA may use in this form the same original approval or adoption date used in the prior year form.

Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources;

however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

Located in Riverside, Mission Vista Academy is a tuition-free, public charter school serving transitional kindergarten through 10th-grade students. We plan to open grade eleven in 2021-22 and grade twelve a year after. As a non-classroom-based independent study charter school, we take great pride in offering our students flexible, personalized learning experiences. Families select the combination of systems that best suit student learning needs and interests, including Place-Based Learning that immerses students in local cultures, landscapes, and resources to contextualize our curriculum. To this end, we offer interest-based Community Connections classes for students to collaborate with peers based on similar interests. We provide online courses led by our credentialed teachers and in-person courses (when appropriate based on COVID restrictions). We will be adding 11th grade in 2021-2022 and 12th grade in 2022-2023. Of our approximately 3,632 students, 38% of students are either English Learners or live in poverty or foster care. About 6% of our students have exceptional learning needs. Further, 48% of our students are White, 35% are Hispanic or Latino, 7% are Two or More Races, 4% are Black, and 2% are Asian.

We have not been in operation a sufficient number of years to receive California Schools Dashboard results. Even if we did, the state did not public Dashboard results for 2020 (SB98). The state published valid and reliable data collected in 2019-20, including the graduation cohort and college career readiness rates. However, we do not qualify for either of these metrics because we did not enroll students beyond grade 9 last year. Still, on November 6 (2020), the California Board of Education approved the Renaissance STAR360 Student Growth Percentile (SGP) metric as a valid measure to demonstrate academic growth.

Early Literacy

Our SGP results demonstrate above-average academic growth in early literacy for all subgroups and grades, except grade one. We suspect this result is due to the impact of COVID19 in the spring semester. Further, the SGP results for our grade 2, Black, and Hispanic students demonstrate significant academic growth during the 2019-20 school year, well above the expected average growth

Reading

The SGP results demonstrate above-average academic growth in Reading for all subgroups and grades, except Asian students and grade 4. To be clear, all students in grade 4 meet the expected academic growth in Reading; they did not demonstrate above-average growth. Also, Asian students scored only 1 SGP below the expected growth- we consider this result to be within an acceptable statistical variance given the impact of COVID19. Simultaneously, the SGP results for American Indian or Alaska Native and Black students and grades 2 and 9 demonstrate academic growth in reading well above the expected growth. The SGP results for our Hispanic and White student demonstrate above-average growth in Reading

Math

Our SGP results demonstrate students in grades 2, 5, 6, 7, and 8 made above-average math growth. Our Hispanic, White, and Asian students made above-average academic growth in math.

English Learners

As stated, we have not been in operation a sufficient number of years to receive California Schools Dashboard results, including the English Learner Progress Indicator. However, our English Learner (EL) reclassification rate for the 2019-20 school year exceeds that of the district, county, and state. Our 2019-20 EL reclassification rate is 19%, while the district rate is 13%, the county rate is 15%, and the state rate is 14%.

Our SGP results for math indicate that students in grades 1, 3, 4, and 9 did not meet the expected growth in math. However, we consider these SGP results to be within a statistically acceptable variance given the impact of COVID19 at the end of last year. For example, the average SGP of grade 3 students is one percentile below the expected average growth over time. When looking at the math SGP results by subgroup, our American Indian or Alaska Native and Black students did not meet the expected growth in math. Still, the SGP for both groups is within 5 percentiles of the expected growth. Thus, the impact of COVID19 last year makes it challenging to discern whether Black and American Indian or Alaska Native students made the average expected growth in math. Like all schools, we are working to improve our math curriculum and instruction.

To improve student performance, we will use federal funds to implement the following strategies:

Title I, Part A: We plan to focus on supplementing and enhancing mathematics instruction for 6th to 9th grade. This is where the achievement gap widens for low-income students and some students begin to give up on school. Our theory of action is that by providing more intensive support during grades 6th through 9th, we can prepare struggling students to meet state academic standards, so they are well prepared for high school, college, and career. We hypothesized that the most effective use of the Title I fund would be to provide small intervention classes virtually in math, where the achievement gap was widest, in order to provide teachers, the time and opportunity to build relationships with struggling students. In addition, our data shows that socio-emotional challenges contribute to a lack of academic and general school success, we are also enhancing socio-emotional support at our school. Most of the Title I funding will go to support efforts to improve performance of low-income students and other students not meeting standards in math. Additional uses of Title I funds may include funding parent involvement and education activities for parents whose children qualify for Title I services, such as Parent Workshops and support for parent access to Naviance, our online college and career planning software, and meeting the needs of homeless students.

Title II, Part A: Title II funds will be used to supplement school funds used for professional development for principals, vice principals, coordinators, and coaches to improve initial instruction in identified areas of need, including math achievement. Professional development is currently focused on Common Core Math Standards approach, including the practice standards. Our professional development also focuses on academic supports for students who are not successful in learning to read using our core program and current intervention programs and plan instructional improvements to increase student success; and new teacher induction to help teachers new to the profession become effective as quickly as possible. Additionally, our professional development for school leaders and teachers focuses on collecting, interpreting, and using data to inform our instructional practice and curriculum.

Title III, Part A: Professional learning to guide and support administrators, coordinators, and teachers in addressing English learners' academic needs to ensure they gain academic content knowledge and English language proficiency.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

Our LCAP Goals are as follows: Optimizing Conditions for Learning, Improving College and Career Readiness, and Improving Access and Success in a Broad Course of Study. To ensure alignment, our Federal Addendum to the LCAP outlines strategies and activities that are based on federal funding that are in addition to the overall approach covered in the LCAP as a whole. Specifically, we plan to utilize ESSA funds to enhance our state-funded programs so no student falls through the cracks, especially with our personalized learning approach.

Title I

- Goal 3, Action 10- Increase and improve targeted academic support for students who are not meeting proficiency on state assessments (ELA and math).
- Goal 3, Action 11- Monthly parent meetings (in addition to regular HST meetings) focused on understanding state academic standards and their relation to their children's education.
- Goal 3, Action 12- Monthly teacher professional development focused on understanding state academic standards and integrating them into classes, teacher resources, instructional material, and educational support.
- Goal 3, Action 13- Establish a digital library program to provide students an opportunity to develop digital literacy skills and improve academic achievement. A digital library will emulate college approaches to creating centers of technology and information literacy, allowing students to access a vast array of books online and includes English Learner supports such as audiobooks and those written in their native language.

Title II

- Goal 1, Action 6- To improve our professional growth and improvement systems for teachers and administrators, we will provide staff training related to formative, diagnostic, and interim assessments.

To optimize data produced by diagnostic and interim assessments, it is vital that staff fully understand how to interpret results and modify curriculum and instructional appropriately.

Title III

- Goal 3, Action 9- Professional learning to guide and support administrators, coordinators, and teachers in addressing English learners' academic needs to ensure they gain academic content knowledge and English language proficiency.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(4)	N/A

Describe the poverty criteria that will be used to select school attendance areas under Section 1113.

ESSA Provisions Not Addressed in the LCAP

For the majority of LEAs the ESSA provisions on the following pages do not align with state priorities. **Each provision for each program provided on the following pages must be addressed**, unless the provision is not applicable to the LEA. In addressing these provisions, LEAs must provide a narrative that addresses the provision **within this addendum**.

As previously stated, the CDE emphasizes that the LCAP Federal Addendum should not drive LCAP development. ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

TITLE I, PART A

Educator Equity

ESSA SECTION 1112(b)(2)

Describe how the LEA will identify and address, as required under State plans as described in Section 1111(g)(1)(B), any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Not applicable to charter schools.

Parent and Family Engagement

ESSA SECTIONS 1112(b)(3) and 1112(b)(7)

Describe how the LEA will carry out its responsibility under Section 1111(d).

Describe the strategy the LEA will use to implement effective parent and family engagement under Section 1116.

THIS ESSA PROVISION IS ADDRESSED BELOW:

During the 2019-2020 school year, significant outreach and engagement was conducted with families. This included parent surveys and virtual town hall meetings. This was critical in providing the information needed for the 2020-2021 school year, given the challenges of COVID-19. During the 2020-2021 school year, these strategies were repeated to ensure families are able to share their experiences and provide input into the LCAP. We collect data from a broad range of stakeholders (parents/guardians, students, staff, community members) regarding their priorities in a series of meetings and surveys throughout the school year.

In addition, we hold virtual town hall meetings and focus groups to gather additional information related to the LCAP. For parents and family members specifically, we hold meetings where families provide input on their priorities for the LCAP. Staff discusses the LCAP in DELAC meetings, and one

to one meetings. These comments/suggestions, along with the student achievement and school climate data informed the drafting of the LCAP goals, actions, and services.

MVA involves parents of Title I students in an organized, ongoing, and timely way. Parents will be involved in the planning, review, and improvement of its Title I programs and the Title I parental involvement policy. The policy will be annually distributed in the Parent Student Handbook and be included in board policy. It will be available on the school website with hardcopies available as needed from the school office. The Parent Involvement Policy is based upon Board Policy and Administrative Regulations to ensure compliance with both Federal and State regulations. The policy will be updated annually based on the feedback received from our parent advisory group, School Site Council and ESSA updates.

Parents are involved in the governing of the school through participation in surveys, DELAC, and our parent advocacy group. Parent groups may assist the school with community outreach, resource development, extracurricular programs, and community service projects. MVA views parents/guardians as our partners in educating our students. We have dedicated staff to assist all Title I parents/guardians the opportunities to participate in school activities and meetings including parents/guardians with limited English proficiency, with disabilities, and/or migrant students. We ensure all school information and reports are provided in a format and language that parents/guardians understand via digital format that can be translated with the use of technology. School provides use of interpreters, translators, and/or American sign language. In addition, educators communicate regularly with parents and families regarding school events, students' progress via zoom, email, phone, IM, or text. We have established an ongoing process to gather information through regular surveys.

Schoolwide Programs, Targeted Support Programs, and Programs for Neglected or Delinquent Children

ESSA SECTIONS 1112(b)(5) and 1112(b)(9)

Describe, in general, the nature of the programs to be conducted by the LEA's schools under sections 1114 and 1115 and, where appropriate, educational services outside such schools for children living in local institutions for neglected or delinquent children, and for neglected and delinquent children in community day school programs.

Describe how teachers and school leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program under Section 1115, will identify the eligible children most in need of services under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

Homeless Children and Youth Services

ESSA SECTION 1112(b)(6)

Describe the services the LEA will provide homeless children and youths, including services provided with funds reserved under Section 1113(c)(3)(A), to support the enrollment, attendance, and success of homeless children and youths, in coordination with the services the LEA is providing under the McKinney-Vento Homeless Assistance Act (42 United States Code 11301 et seq.).

THIS ESSA PROVISION IS ADDRESSED BELOW:

MVA recognizes the right of all students residing within the school's boundaries, including those who are homeless, the opportunity to enroll in, and participate in MVA's educational and support programs. MVA will use Title I funds to supplement programs and supports aligned with the provisions of the McKinney-Vento Homeless Act and ensure that each child of a homeless individual and each homeless youth has equal access to the same free, appropriate public education as provided to other children and youths. The school will provide specific information in outreach materials, websites, and social media platforms notifying parents that the school is open to enroll and provide services to all students, which shall include contact number to access additional information regarding enrollment. A student's IEP or report card will never be required prior to participation in any attendance lottery or as a condition of enrollment.

School Homeless Liaison

The school will designate a member of the leadership team as the School Homeless Liaison ("Homeless Liaison") for homeless students attending a school or program. The Homeless Liaison will receive annual training in appropriate enrollment practices and techniques for homeless students and families. Training includes informing families about immediate enrollment, regardless of documentation, guiding families through filling out registration documents and providing families with a list of pamphlets designed to inform them of the services provided for them. The pamphlet also includes the contact information our homeless liaison so that parents and students know who they can contact for help. The Homeless Liaison shall ensure that:

1. Homeless students are identified by school personnel and through coordinated activities with other entities and agencies.
2. Homeless students will be enrolled and provided a full and equal opportunity to succeed school and various programs. Enrollment disputes are mediated in accordance with law, Board policy, and procedure.
3. Homeless families and students receive all educational services for which they are eligible.

Parents/guardians are informed of the educational services and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children. Homeless students are provided with technology, supplies and counseling in order to support them academically as well as social-emotionally. These needs could include academic, attendance, or social emotional support. MVA helps support the needs of homeless students as well as offering counseling services to students in need. Graduation requirements are adjusted for homeless students as necessary, and our enrollment practices are in alignment with the McKinney-Vento Homeless Assistance Act.

Other services provided to homeless students include:

- Educational Planning
- Assistance with Participation in school programs, college entry programs, and transition to college and career.
- Tutoring or other instructional support
- Expedited Evaluations
- Referrals for Medical, Dental, counseling, housing and other services/programs
- Coordination between Schools and Agencies
- Obtaining or Transferring Records for easy Enrollment

Student Rights

Homeless students who are enrolled in the school have the right to:

- Equal access to all educational programs and services, including transportation and school nutrition programs.
- Continue to attend the school for the duration of homelessness or the current school year.
- Right to return to the school if MVA was their most recent previous school.
- Receive all educational services for which they are eligible.

Student Transitions

ESSA SECTIONS 1112(b)(8) and 1112(b)(10) (A–B)

Describe, if applicable, how the LEA will support, coordinate, and integrate services provided under this part with early childhood education programs at the LEA or individual school level, including plans for the transition of participants in such programs to local elementary school programs.

Describe, if applicable, how the LEA will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including:

- (A) through coordination with institutions of higher education, employers, and other local partners; and
- (B) through increased student access to early college high school or dual or concurrent enrollment opportunities, or career counseling to identify student interests and skills.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Transition into Our School Model

Through school-provided videos and information during the enrollment process, families are provided the details of our school's educational model. Once enrolled, an initial meeting with their assigned home school teacher (HST) serves to inform parents and students about our school policies and expectations. Together, and with guidance from the high school counselor as appropriate, the HST and the parent develop an Individual Learning Plan (ILP) for each student; this facilitates a smooth transition from the students' previous school programs to the flexible, rigorous academic curriculum of MVA'S instructional program. Students who struggle with the transition are identified early through diagnostic assessments, standards-based assessments, teacher and parent observations, and are then given extra support as appropriately deemed through our multi-tiered system of support, to include our intervention program.

Supporting All Transitions through Social Emotional Learning (SEL)

Transitions of all kinds are supported at our school through our Social Emotional Learning (SEL) program. These transitions can include school changes, personal changes in the home, medical

changes, and societal changes. Our SEL team has developed comprehensive trainings to staff and students. The SEL team offers slide show presentations (with optional voiceover recordings) and corresponding supplemental resources as tools for teachers to use with each of their students on a monthly basis. These SEL lessons complement a monthly webinar offered to high school students on the given theme (such as Anger Management, Relationship Skills, etc). We plan to provide additional SEL curriculum for all grade levels, professional development to all staff on how to support our students in greatest need through transitions, and parents' trainings/workshops. Stakeholder engagement in SEL program will include: Input from school staff, survey sent to families, parent focus group, and communications through our school newsletter, emails, and meetings.

Middle school to high school

So that they can guide their students, teachers are trained in pertinent topics such as: graduation requirements, curriculum options, Career & Technical Education (CTE) programs, A-G College entrance requirements, concurrent enrollments, etc. While students are in 8th grade, teachers meet with students and parents to discuss high school options and requirements. Together, they consider student goals and create an individualized graduation plan. These plans are all reviewed by our counseling department. Once the plan is completed, the teacher and student select classes and order the necessary curriculum before the summer break. Families are also invited to meet with counselors as desired.

We offer high school orientation meetings to all of our new high school students and their families. A career planning course is mandatory for all incoming high school students to learn necessary study and organizational skills. This course also allows the students to begin to explore career options to work towards. As the year progresses, high school support specialists can recommend curriculum and adjust the graduation plan if it isn't in alignment with their most up-to-date life goals.

For our Special Education (SPED) students, we offer the Transition Bridge Program. It is designed to provide support to students and their families as they embark on the high school journey. In order to have an effective, meaningful transition to high school, students and families need to be given tools for academic and social success. Our highly qualified transition team will guide, mentor, and support students throughout the process.

High school to college and career

We will open grade 11 in 2021-22 and grade 12 a year after. Our school has not been in operation long enough to qualify for feedback from the California Schools Dashboard, including the College and Career Indicator. Still, we are aware of the metrics used within the Dashboard to determine college and career readiness. Through this Goal, we will focus on our A-G completion rates, Advanced Placement (AP) examination scores of 3 or higher, Career Technical Education (CTE) Pathway completion rates, CAASPP scores, the percent of students scoring at Conditionally Ready or Prepared on Early Assessment Program (EAP), and the number of students completing college credit courses.

Additional Information Regarding Use of Funds Under this Part

Professional Growth and Improvement

ESSA SECTION 2102(b)(2)(B)

Provide a description of the LEA's systems of professional growth and improvement, such as induction for teachers, principals, or other school leaders and opportunities for building the capacity of teachers and opportunities to develop meaningful teacher leadership.

THIS ESSA PROVISION IS ADDRESSED BELOW:

All professional development activities are focused on the students mastering the content standards. Professional activities are planned based on the assessments results as well as classroom observations. At the beginning of the year, professional developments time is dedicated to focusing in on the selected instructional programs.

Professional development activities are based on scientifically based research that has been effective in driving forward student achievement. As all instruction is data-driven, so is the professional development and are thus expected to improve student achievement. We have not been in operation a sufficient number of years to receive California Schools Dashboard results. The state published valid and reliable data collected in 2019-20, including the graduation cohort and college career readiness rates. However, we do not qualify for either of these metrics because we did not enroll students beyond grade 9 last year. Still, on November 6 (2020), the California Board of Education approved the Renaissance STAR360 Student Growth Percentile (SGP) metric as a valid measure to demonstrate academic growth. Our professional learning for teachers and administrators integrates the STAR360 SGP results.

All professional development is designed to support the student achievement of all students while cognizant of the specific needs of our subgroups. Data will be disaggregated by gender, ethnicity, English Learners, and socioeconomic status. Any identified gaps will alter professional activities.

Teachers and administration will be able to attend professional development activities that will enhance their growth as educators. Professional development is planned based on the needs of the school and the staff. Grade levels meet for at least an hour each week to share and support each other on top of the planned professional development on a specific topic. BTSA mentors will be provided for those teachers in need of this support.

Topics may include instructional strategies like improving check for understandings, incorporating resulting in a positive and lasting impact on student achievement in their classrooms.

Another integral component of professional development at the school are the monthly Professional Learning Community (PLC) meetings. Teachers collect student's achievement data, conduct one-one-one meetings and review student academic work. Following the student-teacher meeting, the team discusses student learning based on student data and notes from the observation. Teachers are

empowered to provide feedback to their colleagues in supporting students' academic success. These meetings allow MVA staff to notice instructional and cultural trends across the school and align professional development accordingly. Students' language proficiency levels as determined by the ELPAC will be closely monitored to ensure our students are advancing to higher levels of English Language proficiency.

Student mastery of the grade level content standards will be measured through standards-based assessments, as well as the SBAC, the STAR360 assessment, and other summative assessments. In addition, teachers will keep anecdotal records of their students' progress. Assessment results will be disaggregated by English language proficiency levels for further analysis. Additionally, the academic progress of reclassified students will be monitored for four years after reclassification.
