

## Section 1: Overview

**Goal:** English learners read, analyze, interpret, and create a variety of literary and informational text types. They develop an understanding of how language is a complex, dynamic, and social resource for making meaning, as well as how content is organized in different text types and across disciplines using text structure, language features, and vocabulary depending on purpose and audience. They are aware that different languages and variations of English exist, and they recognize their home languages and cultures as resources to value in their own right and also to draw upon in order to build proficiency in English. English learners contribute actively to class and group discussions, asking questions, responding appropriately, and providing useful feedback. They demonstrate knowledge of content through oral presentations, writing tasks, collaborative conversations, and multimedia. They develop proficiency in shifting language use based on task, purpose, audience, and text type.

**Critical Principles for Developing Language and Cognition in Academic Contexts:** While advancing along the continuum of English language development levels, English learners at all levels engage in intellectually challenging literacy, disciplinary, and disciplinary literacy tasks. They use language in meaningful and relevant ways appropriate to grade level, content area, topic, purpose, audience, and text type in English language arts, mathematics, science, social studies, and the arts. Specifically, they use language to gain and exchange information and ideas in three communicative modes (collaborative, interpretive, and productive), and they apply knowledge of language to academic tasks via three cross-mode language processes (structuring cohesive texts, expanding and enriching ideas, and connecting and condensing ideas) using various linguistic resources.

\*The California English Language Development Standards correspond to the California Common Core State Standards for English Language Arts and Literacy in History/Social Science and Technical Subjects (CA CCSS for ELA/Literacy). English learners should have full access to opportunities to learn ELA, mathematics, science, history/social studies, and other content at the same time they are progressing toward full proficiency in English.

Connecting and Condensing Ideas</b>	<p><b>6. Connecting ideas</b>            Combine clauses in a few basic ways to make connections between and join ideas (e.g., You must X because X) or to provide evidence to support ideas or opinions (e.g., creating compound sentences using <i>and</i>, <i>but</i>, <i>so</i>).</p> <p><b>7. Condensing ideas</b>            Condense clauses in simple ways (e.g., through simple embedded clauses as in, <i>The book is on the desk. The book is mine.</i> → <i>The book that is on the desk is mine</i>) to create precise and detailed sentences.</p>	<p><b>6. Connecting ideas</b>            Combine clauses in an increasing variety of ways (e.g., creating compound and complex sentences) to make connections between and join ideas, for example, to express cause/effect (e.g., <i>The deer ran because the mountain lion came</i>), to make a concession (e.g., <i>She studied all night even though she wasn’t feeling well</i>), or to provide reasons to support ideas (e.g., X is an <i>extremely good book because _____</i>).</p> <p><b>7. Condensing ideas</b>            Condense clauses in an increasing variety of ways (e.g., through a growing number of types of embedded clauses and other condensing as in, <i>The book is mine. The book is about science. The book is on the desk.</i> → <i>The science book that’s on the desk is mine</i>) to create precise and detailed sentences.</p>	<p><b>6. Connecting ideas</b>            Combine clauses in a wide variety of ways (e.g., creating compound and complex sentences) to make connections between and join ideas, for example, to express cause/effect (e.g., <i>The deer ran because the mountain lion approached them</i>), to make a concession (e.g., <i>She studied all night even though she wasn’t feeling well</i>), to link two ideas that happen at the same time (e.g., <i>The cubs played while their mother hunted</i>), or to provide reasons to support ideas (e.g., <i>The author persuades the reader by _____</i>).</p> <p><b>7. Condensing ideas</b>            Condense clauses in a variety of ways (e.g., through various types of embedded clauses and some nominalizations as in, <i>They were a very strong army. They had a lot of enemies. They crushed their enemies because they were strong.</i> → Their strength helped them crush their numerous enemies) to create precise and detailed sentences.</p>

## Section 2: Elaboration on Critical Principles for Developing Language and Cognition in Academic Contexts

### Part III: Using Foundational Literacy Skills

#### Foundational literacy skills in an alphabetic writing system

- Print concepts
- Phonological awareness
- Phonics and word recognition
- Fluency

See chapter 6 for information on teaching foundational reading skills to English learners of various profiles based on age, native language, native language writing system, schooling experience, and literacy experience and proficiency. Some considerations are as follows:

- Native language and literacy (e.g., phoneme awareness or print concept skills in native language) should be assessed for potential transference to English language and literacy.
- Similarities between the native language and English should be highlighted (e.g., phonemes or letters that are the same in both languages).
- Differences between the native language and English should be highlighted (e.g., some phonemes in English may not exist in the student's native language; native language syntax may be different from English syntax).
