## California Department of Education School Accountability Report Card Reported Using Data from the 2015-16 School Year

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians, and community members should contact the school principal or the district office.

### DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

### School Description and Mission Statement (School Year 2016-17)

#### Mission:

To prepare a diverse group of students to be successful in college and to be thoughtful, engaged citizens who are leaders and innovators in a 21st century global world.

#### Vision:

EBIA is rethinking how schools are run and structured, so that they better reflect the needs of a 21st century world. Most schools have not changed their structure, organization, facilities or instruction in over 50 years. While schools have not changed, our world has, leaving many of our schools, even the "best" ones, behind. EBIA offers a powerful option for Oakland families and educators to build a diverse school that addresses the needs of the 21st century and beyond.

#### Our Learning Model:

EBIA is a rigorous STEAM (Science, Technology, Engineering, Art and Math) school with a unique focus on the social and emotional skills students need to be leaders. Students learn to be problem solvers and strong advocates who work together and take responsibility for their own learning.

- Project Based Learning: Students work together on long-term, "real-world" projects that combine many different subjects, and learn to present those projects using technology.
- Blended Learning: Students alternate between different learning models, including online learning, and in later grades will be self-guided.
- Innovation + Design: We make and do things! EBIA is a safe place for students to explore their interests and learn the life lessons taught through practice and experimentation.

#### Goals:

- Develop leaders who work together and take ownership of their own learning experiences.
- Offer families a 21st century program that provides a new and innovative alternative to current Oakland schools. Increase the number of students who excel in math, technology, and innovation so they can become leaders in a new, quickly changing, economy.

- Hire talented educators who are excited to teach at a challenging and innovative public school.

## School Facility Conditions and Planned Improvements

EBIA is located in an OUSD facility, secured through the Prop 39 process at 3400 Malcolm Ave, Oakland, CA 94605. The campus is a former elementary school with 12 classrooms, a multipurpose room that is used as a gym, auditorium, community room, and a lunch area. There is a spacious outdoor area, teacher and administrative offices, and outdoor parking. Each classroom is equipped with an LCD projector and the entire building is equipped for wireless internet. There is a separate student and teacher network. The building is equipped with an alarm system that is armed every evening when faculty leave. The facilities are well maintained and in good condition and are adequate for the delivery of the instructional program. EBIA contracts directly for custodial services and the facilities are cleaned on a daily basis.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

**Career Technical Education Programs (School Year 2015-16)**

Within the 2015-2016 school year, EBIA served students in grades 6, 7 and 8. In order to prepare students to begin thinking of areas of interest and in support of college and career readiness, EBIA supports an intercession program wherein students complete a number of self-selected projects on and off site that engage them in science and technology careers and skills. These have included coding, robotics, bike mechanics and repair, urban farming and more.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite

#### Opportunities for Parental Involvement (School Year 2016-17)

Parent involvement is a big part of our success. There are numerous avenues for parents to become involved in school activities. We have several parent volunteers working as office staff, tech support and outreach for enrollment.

Every EBIA family is matched with a school advisor, who will stay with the family throughout their years at EBIA. Advisors meet with families regularly to map out personal academic, social-emotional, and career goals for each student.

Cafelito is an opportunity for parents to come in and have discussions with other parents and staff. It is held twice a month. In order to make it available to as many parents as possible, one session is in the morning and the other is in the evening.

The Parent Advisory Committees (PACs) are groups of parents and community members who gather together with a common goal - to make great things happen at EBIA! Each PAC has a specific focus. We encourage parents with skills that may help, or that are interested in what a PAC is doing to join.

We have an EBIA mailing list to keep the parents up-to-date on school activities. We also have a section of our website dedicated to EBIA families. It includes several way for families to get involved with school activities.

## School Safety Plan (School Year 2016-17)

EBIA has worked hard to ensure the School Safety Plan meets or exceeds safety standards. There is a designated team on site to review and monitor the safety plan periodically. The Plan includes but is not limited to Emergency Safety Drills, building inspections and safety training for staff members.

All staff and students participate in training to ensure familiarity with emergency procedures. All staff members are certified in first aid and CPR. The School also complies with the Education Code requirement that each new employee be fingerprinted for the purpose of obtaining a criminal background check as a condition of employment.

EBIA follows standard health and safety practices as required by State and local law. All visitors to the school are required to sign in and indicate the purpose of their visit. No unauthorized visitors are allowed on the campus. The School practices close communication with parents, such as calling home when a student is sick or in the case of a medical emergency to ensure the health and safety of the student body

## Professional Development

East Bay Innovation Academy has been in operation since the 2014-2015 school year. EBIA faculty are given enormous opportunity to grow as educators and develop new skills.

EBIA has created a teacher Development Cycle (TDC) that begins with setting goals and growth plans for the school year in the Personalized Educator Plan (PEP). School leaders also commit to regular observation and feedback to ensure that teachers are meeting their goals and that they have the proper resources to do so. Additionally, the school offers a number of days of professional development per year, in order for teachers to meet their professional development goals. These professional development days take place at the start of the year, during intersession (a 2 week period 3 times during the school year), at the end of the year, and on dedicated days during the school year. A portion of regular leadership team (faculty) meetings is also be dedicated to professional development. Intrinsic in these professional development sessions are several days dedicated to data analysis of student assessment and student work, to ensure that teachers are meeting their own individual classroom goals as well as the school's instructional goals. PD days are also be dedicated to helping targeted student populations, including special education, ELs, and other struggling students. Finally, EBIA has incorporate the newest technology in teacher development, including video, observation data and online talent management systems.

In the spirit of our innovation and design focus, a portion of professional development time is investigating the design of the school and making sure the school is using the most up to date, innovative practices in innovation. Faculty undergoes the design process themselves, investigating how to continually "iterate" and improve upon the school and the student experience.
