ANTS Basketball emphasizes individual improvement and group play. Using age-appropriate balls, students will learn and practice new skills such as dribbling, passing, shooting and rules of the game. Last but not least, our focus is to utilize basketball as a means to learn healthy habits on and off of the court. All skill levels are welcome!
Coding	Engineering for Kids - S.T.E.M. & Robotics Club - Engineering for Kids	1st grade room	Engineering for Kids San Francisco	4th-5th	Mondays (4th-5th) 2:10-3:10pm *1:10-2:10pm on minimum days (min. 6/max. 12 students)	1/30	2/20, 4/10	5/22	\$495	Download registration form from the SFB website, fill it out, enclose check made out to St. Finn Barr & return to the Front office by 1/11/2023	We'll cover two topics in this 15-week program. Topic 1: The CoderZ Adventure: This program teaches the basics of coding and robotics, an exciting interdisciplinary STEM field. The course is powered by CoderZ's Online Robotics Learning Environment which provides online simulation, a visual code editor, embedded content, class management and more. No prior knowledge needed! Topic 2: We'll use an online platform that teaches kids real coding. The platform will begin with courses that focus on the basics of computing and coding and then progress learning coding essentials with simpler, visual programming. We'll use the platform to engage in various coding projects.

It also helps demonstrate the principles of stewardship and improve the understanding of our place in our ecosystem. Gardens also foster a child's connection to the natural world and increases amount of unstructured play and imagination. We have included time for arts and crafts to improve coordination and fine motor skills. We have a different lesson plan each day to include painting, planting, composting and creating tools & decor for the garden – watering cups, compost bins, rain water collection bin, scarecrows, bird houses, decorative rocks, etc.
