Tuition Assistance

The Diocese of Sacramento and St. Patrick-St. Vincent High School provide Tuition Assistance for families who qualify. Tuition Assistance allows the school to assist students who might otherwise be unable to attend. To qualify for assistance, a family must demonstrate need. To be considered for assistance, a family must submit an application to TADS, which assesses the application and advises the school. Though total financial need always exceeds the school's resources, the school helps as many families as possible. Families are required to re-apply each year, November 1st –January 31st.

Full & Timely Payment of Tuition & Fees

St. Patrick-St. Vincent High School is self-sufficient and operates at break-even. Except for some funds provided by the diocese of Sacramento for Tuition Assistance for needy families, the School relies solely on tuition, fees, fundraisers, and donations. Tuition and fees account for roughly 95% of the School's income, so fundraisers, the Annual Appeal, and other donations subsidize nearly 5% of the cost of educating our students. Also, except for a very modest assessment to offset the costs to the Diocese for providing valuable support services to the School, all the School's income remains with the School to fund its educational mission.

Operating the School is financially demanding. Faculty and staff include more than 60 full-time positions and several part-time positions, including bus drivers. Our 31 acres of land is home to numerous athletic facilities and 43,000 square feet of classrooms, labs, offices, library and related facilities, most of which are 44 years old. Though the School operates very efficiently, the cost of running the School during the 2018-2019 school year will exceed \$9 million dollars.

The School relies on financial support from parents, alumni, and friends in order to provide the quality education it has proudly provided for thousands of students for roughly 145 years. Because the School relies so heavily on tuition and fees, **we must insist that all our families meet their financial commitments to the School in a timely manner.** The School simply cannot absorb the costs of educating students whose tuition obligations to the School are not met. SPSV thanks you for your continuing support.
