

NYSDOH COVID-19 In-Person Decision Making Flowchart for Student Attendance

Can My Child Go To School Today?

In the past 10 days, has your child been tested for the virus that causes COVID-19, also known as SARS-CoV-2?

YES

Was the test result **positive** OR are you still waiting for the result?

YES

Your child **cannot** go to school today. They must stay in isolation (at home and away from others) until the test results are back and are **negative** OR if **positive**, the local health department has released your child from isolation.

NO

In the last 14 days, has your child:

- Traveled internationally to a **CDC level 2 or 3 COVID-19 related travel health notice country**; or
- Traveled to a state or territory on the **NYS Travel Advisory List**; or
- Been designated a contact of a person who tested positive for COVID-19 by a local health department?

YES

Your child **cannot** go to school today. They must stay at home until your local health department releases your child from quarantine, at least 14 days. A negative diagnostic COVID-19 test does not change the 14-day quarantine requirement.

NO

Does your child currently have (or has had in the last 10 days) one or more of these new or worsening symptoms?

- A temperature greater than or equal to 100.0° F (37.8° C)
- Shortness of breath or trouble breathing
- Feel feverish or have chills
- Nausea, vomiting, diarrhea
- Cough
- Muscle pain or body aches
- Loss of taste or smell
- Headaches
- Fatigue/feeling of tiredness
- Nasal congestion/runny nose
- Sore throat

YES

Your child **cannot** go to school today. Your child should be assessed by their pediatric healthcare provider (HCP). Call your child's HCP before going to the office or clinic to tell them about your child's COVID-19 symptoms. If your child does not have a HCP, call your local health department.

NO

Your child CAN go to school today. Make sure they wear a face covering or face mask, practice social distancing, and wash their hands!

Report absences, symptoms, and positive COVID-19 test results to your child's school.

SEEK IMMEDIATE MEDICAL CARE IF YOUR CHILD HAS:

- Trouble breathing or is breathing very quickly
- Change in skin color - becoming pale, patchy and/or blue
- Prolonged fever
- Racing heart or chest pain
- Is too sick to drink fluids
- Decreased urine output
- Severe abdominal pain, diarrhea or vomiting
- Lethargy, irritability, or confusion
