

AB 2022, Pupil mental health services: school notification

In accordance with AB 2022, the El Dorado County Office of Education Special Services wants to ensure that parents, guardians, and students are informed about resources available for anyone who believes they are in a mental health crisis. We also encourage parents/guardians and students to talk with any adult in the school district if they are concerned about other students and possible mental health needs. Take all threats of suicide seriously.
