BP 0510 School Accountability Report Card

The El Dorado County Board of Education views school accountability report cards as an excellent way to inform the community about conditions, needs, and progress at each school and to help provide data by which parent/guardians can make meaningful comparisons between schools. In addition, the process of developing the report cards gives the school staff opportunities to review achievements, identify areas for improvement, enlist local support, and establish a vision for the future.

The County Superintendent or designee shall maintain a process for developing annual report cards for each school site with input from all segments of the school community. After the report cards are issued, the County Superintendent or designee shall provide opportunities for staff and the community to discuss their content and strategies for communicating the information contained in the cards to all stakeholders.

Note: Education Code Section 35256 requires the Governing Board to annually issue a school accountability report card, reporting all conditions listed in Education Code Sections 33126 and 41409.3, for each school in the district, publicize such reports, and notify parents or guardians of students that a copy will be provided upon request.
