

Old Mission School 1:1 Chromebook Family Agreement Form

(Grades 6-8)

The essential goal of the OMS Middle School 1:1 program is to provide students ready access to classroom-integrated digital learning while on campus and at home. A parent and the student are required to read and sign the following agreement prior to being issued a Chromebook through Old Mission School's 1:1 Middle School Chromebook program.

1. Student and parent(s) are financially responsible for damage to or loss of the Chromebook according to the following:
 - If the Chromebook is lost or stolen, the family must pay the replacement cost.
 - If the Chromebook is damaged, the family will pay the lesser of the cost of repair or \$75 for the first incident. For subsequent incidents, the family will pay the full cost of repair up to and including full replacement.
 - At the time of the inception of this program, the replacement cost for a Chromebook, charger and case is approximately \$300.
2. Student and parent(s) understand the student is expected to use the Chromebook according to the policies and principles of the School. Should a student misuse the Chromebook in a manner that represents the school poorly, the student will be subject to disciplinary action.
3. Student and parent(s) understand that software may only be installed on the Chromebook by OMS IT staff.
4. Student and parent(s) understand that the sharing of any software installed on the Chromebook, including eBooks, with any other person is against the law and School policy. Anyone who violates license agreements by doing this will be subject to disciplinary action.
5. Student and parent(s) are responsible for the prompt return to the School of the Chromebook, charger, and case subject to this Agreement at the end of the school year unless the chromebook has been purchased by the Family.

I have read, understand and will comply with the Old Mission School's 1:1 Chromebook Middle School Program Agreement.
