

# Corpus Christi Catholic Church

## Wedding Photography and Videography Rules

**Philosophy:** Photographers and videographers and their equipment, cameras, tripods, etc. should not be noticed throughout the wedding pre-ceremony, ceremony and wedding recession (procession after the ceremony). Photographers and videographers are never allowed in the Sanctuary behind the altar rail or in the middle of the church in front of the Sanctuary. Below is a diagram showing where photographers and videographers are **not allowed** shown by **red zone area**.
